Understanding the complex dynamics of financial markets through microsimulation

Qiu, G.

Citation for published version (APA):
CONTENTS

3.2.2 Options markets .......................... 43
3.3 Econophysics ................................. 45

4 Understanding Stock Market Dynamics 49
4.1 A cellular automaton model of stock markets ............... 50
  4.1.1 Level I model ............................. 51
  4.1.2 Level II model ............................ 52
  4.1.3 Level III model ............................ 53
  4.1.4 Rule of price updating ...................... 55
4.2 Simulation results ................................ 57
  4.2.1 Simulation results of the Level I model ............ 57
  4.2.2 Simulation results of the Level II model ............ 58
  4.2.3 Simulation results of the level III model ............ 58
4.3 Discussion: The market dynamics revealed by the model .... 63
  4.3.1 Long-range interactions can emerge from local interactions 65
  4.3.2 Price and volatility are mean-reverting ............... 67
  4.3.3 Heavy tails due to large price variations are caused by imitations .................. 69
  4.3.4 Volatility clustering is related to the evolution of trading activity .................. 71
  4.3.5 The regularity can be identified in some other microsimulation models ................ 73
4.4 Conclusions ................................... 74

5 Why Do Options Markets Smile? 76
  5.1 A microsimulation model of options markets .............. 77
  5.1.1 S model: The market consists of only speculators .... 78
  5.1.2 SA model: The market consists of both speculators and arbitrageurs .................. 79
  5.1.3 SAL model: Difference in liquidity is included ....... 80
5.2 Simulation results ................................ 81
  5.2.1 Shapes of the implied volatility curves ............... 81
    5.2.1.1 Implied volatility curves from the S model ....... 82
    5.2.1.2 Implied volatility curves from the SA model ....... 82
CONTENTS

7.2.2 Applications to practice ........................................ 112
A A detailed description of the options market model .......... 114
  A.1 The rule of option price updating ................................ 114
  A.2 The dynamic aspect of speculators’ behavior ................. 114
  A.3 The parameter values ............................................. 115
B Analytical solution for a special case of the options market model ......................................................... 118
C Levels of trading activity of different speculators .......... 120
Bibliography .................................................................. 132
Glossary ....................................................................... 133
Publications ................................................................... 134
Summary ....................................................................... 135
Samenvatting .................................................................. 138
Acknowledgements ......................................................... 141
