## TABLE OF CONTENTS

1. **General introduction and outline**  
   *Based on: Nutrition and the circadian timing system. Progress in Brain Research 2012;199:359-76*
   
   **9**

2. **Dim light at night disturbs the daily sleep-wake cycle in the rat**  
   *Scientific Reports 2016;6:35662*
   
   **35**

3. **Acute effects of morning light on plasma glucose and triglycerides in healthy men and men with type 2 diabetes**  
   *Journal of Biological Rhythms 2017. In press*
   
   **69**

4. **The diurnal rhythm of adipose tissue gene expression is reduced in obese patients with type 2 diabetes**  
   *Submitted*
   
   **103**

5. **Postprandial plasma bile acid excursions in obese patients with type 2 diabetes are characterized by early peaks, despite normal diurnal rhythms**
   
   **137**

6. **What’s the time: does the artificial pancreas need to know?**  
   *Diabetes 2013;62:2173-4*
   
   **155**

7. **Breakfast replacement with a low-glycaemic response liquid formula in patients with type 2 diabetes: a randomised clinical trial**  
   *British Journal of Nutrition 2014;112:504-12*
   
   **161**

8. **Summary and general discussion**  
   
   **181**

9. **Appendices**  
   
   **201**
   
   - Author affiliations  
   - Nederlandse samenvatting  
   - PhD portfolio  
   - Dankwoord  
   - Curriculum Vitae  
   
   **219**
