1 Introduction 1

1.1 Information seeking tasks 2
1.2 Searching across Multiple Sources 3
1.3 Research questions 4
1.4 Scope 5
1.5 Thesis overview 6
1.6 Thesis contributions 8
1.7 Thesis material 9

I Understanding Users’ Information Seeking Tasks 11

2 Experts’ Information Needs 13

2.1 Introduction 14
2.2 Related work 14
2.3 User study setup 16
2.3.1 Procedure 17
2.3.2 Limitations 18
2.3.3 Participants 18
2.3.4 Classification of use cases 19
2.4 User study results 20
2.4.1 Why do experts search? 20
2.4.2 Where do experts search? 22
2.4.3 What are the experts’ search tasks? 23
2.5 Discussion 26
# CONTENTS

2.5.1 Fact Finding ........................................ 26  
2.5.2 Information Gathering .............................. 27  
2.5.3 Keeping Up-to-date ................................. 29  
2.5.4 General Trends .................................... 29  
2.6 Design Implications ................................. 31  
2.7 Conclusions and Future Work ........................ 33  

3 Lay Users’ Information Needs ............................ 35  
3.1 Introduction ........................................... 36  
3.2 Research method ...................................... 37  
3.2.1 Procedure ......................................... 39  
3.2.2 Participants ....................................... 40  
3.3 Results .................................................. 40  
3.3.1 Types of location-based queries ..................... 41  
3.3.2 The context of location-based search ................ 43  
3.4 Location-based Information Sources .................. 46  
3.5 Discussion ............................................. 47  
3.6 Design implications ................................... 48  
3.7 Conclusion and future work ........................... 49  

II Supporting information seeking tasks across multiple sources .............................. 53  

4 Thesaurus-based Autocompletion Interfaces .......... 55  
4.1 Introduction ........................................... 56  
4.2 Organization of Suggestions ........................... 57  
4.3 User Studies ........................................... 59  
4.3.1 Study 1: Grouping Strategies ....................... 59  
4.3.2 Study 2: Organization Strategies ................. 64  
4.4 Discussion ............................................. 68  
4.5 Conclusions and Future work ........................... 70  

5 Designing a Thesaurus-based Comparison Search Interface .................................. 71  
5.1 Introduction ........................................... 72  
5.2 Related Work ........................................... 73  
5.3 Preliminary Study: Understanding Comparison Search in the Cultural Heritage Domain .......... 74  
5.3.1 Setup .............................................. 74  
5.3.2 Results ............................................ 75
## CONTENTS

5.3.3 Key findings ............................................. 77
5.4 Design Requirements ....................................... 78
5.5 LISA: Design and Implementation .......................... 79
  5.5.1 Design .................................................. 79
  5.5.2 Implementation ......................................... 81
5.6 Evaluation Study: Thesaurus-based comparison search interface evaluation ........................................... 83
  5.6.1 Setup .................................................. 84
  5.6.2 Task ................................................... 85
  5.6.3 Results ................................................ 86
5.7 Discussion .................................................. 88
  5.7.1 Interface ............................................... 88
  5.7.2 Data ................................................... 90
5.8 Conclusions and Future work .............................. 91

6 Source Credibility Ratings in an Information Aggregator 93
6.1 Introduction .................................................. 94
6.2 Related Work ............................................... 94
  6.2.1 Credibility and the Web ................................ 94
  6.2.2 Aggregated Search ..................................... 95
  6.2.3 Transparency .......................................... 96
  6.2.4 Credibility Measures ................................. 96
6.3 Problem Statement .......................................... 97
6.4 Experimental Setup ......................................... 98
  6.4.1 Study 1: Measuring Cultural Heritage Source Credibility ........................................... 98
  6.4.2 Study 2: Cultural Heritage Source
        Credibility Effects ...................................... 101
6.5 Results ..................................................... 104
  6.5.1 Effects of Displaying Credibility Ratings ............ 104
  6.5.2 Effects of Number of Sources .......................... 105
  6.5.3 Effects Between Source and Content .................. 105
  6.5.4 Qualitative Feedback ................................... 107
6.6 Conclusions and Future Work .............................. 107

7 Discussion and Conclusion ................................. 111
  7.1 Research questions revisited .............................. 111
  7.2 Research method revisited ................................ 118
  7.3 Future research ........................................... 120

Bibliography .................................................. 125
Summary
