You will be contacted as soon as possible.

CURRICULUM VITAE

Pedro Frade was born on the 15th of June 1979 in Lisbon, Portugal. After completing secondary school at the Escola Secundária de Camões in Lisbon, he studied Applied Marine Animal Biology in the Faculty of Sciences at the University of Lisbon, during which he took classes for a semester at the University of Amsterdam. He graduated in 2002, after performing his final internship in Curaçao, where he first came in contact with coral reefs and worked on coral reef science. After that, and for nearly a year, he was an MPA researcher for the Department of Oceanography and Fisheries at the University of the Azores, in Horta, Faial. In 2003 he was granted a 4-year scholarship from the Portuguese Science and Technology Foundation. In 2004 he started his PhD, described here, under the supervision of Prof. dr. Rolf Bak, at the Department of Marine Ecology within the Netherlands Institute for Sea Research. Part of the project was conducted in the group Aquatic Microbiology lead by Prof. dr. Jef Huisman, at the University of Amsterdam. From September to December 2008 he was a guest researcher within the group Computational Biology working with dr. Jaap Kaandorp, in the Section Computational Science at the University of Amsterdam.
