106 Please note that not all articles mentioned here were directly referred to in text itself. Some articles were included as they give an interesting impression of the topics that were discussed in the Australian, Indian, and local Indian media in Australia, at the time of my fieldwork 2005 and the writing of this dissertation (2006-2008).

107 Almost all articles mentioned here are available online. Although customary, I have decided not to include the weblinks in my bibliography. The reason for not doing so is that these weblinks regularly change and for that reason no longer serve any purpose. Besides that they are often very long which makes them of little practical use. What works much better is simply typing in (a part of) the title in a search engine such as Google or Yahoo. In my experience this is a much quicker and reliable way of accessing newspaper and magazine articles.
