A closer look at learning relations from text

Katrenko, S.

Citation for published version (APA):
# CONTENTS

1 **INTRODUCTION**
   1.1 Setting the scene
   1.2 VL-e project
   1.3 Research questions
   1.4 Methodology
   1.5 Outline

1 I **BACKGROUND**

2 **SEMANTIC RELATIONS IN A NUTSHELL**
   2.1 Introduction
   2.2 Representation
   2.3 Relation types
   2.4 Properties
      2.4.1 Linguistic view
         Universality
         Productivity
         Prototypicality
   2.4.2 Logical properties
   2.5 Reasoning with (about) relations
      2.5.1 By humans
      2.5.2 By machine
   2.6 Learnability of relations
   2.7 Computational approaches to relation recognition
      2.7.1 Noun compounds
      2.7.2 Methods
      Hand-written patterns
      Automatic pattern acquisition
      Other approaches
      Learning with background knowledge
   2.8 Applications of semantic relations
      2.8.1 Ontology Construction
      2.8.2 Question Answering
      2.8.3 Information Retrieval
   2.9 Conclusions

3 **MACHINE LEARNING METHODS**
   3.1 Machine learning methods
      3.1.1 General notions
      3.1.2 Individual classifiers
      3.1.3 Ensemble methods
      Bagging

4 **BACKGROUND**

5 **SEMANTIC RELATIONS IN A NUTSHELL**
   5.1 Introduction
   5.2 Representation
   5.3 Relation types
   5.4 Properties
      5.4.1 Linguistic view
         Universality
         Productivity
         Prototypicality
   5.4.2 Logical properties
   5.5 Reasoning with (about) relations
      5.5.1 By humans
      5.5.2 By machine
   5.6 Learnability of relations
   5.7 Computational approaches to relation recognition
      5.7.1 Noun compounds
      5.7.2 Methods
      Hand-written patterns
      Automatic pattern acquisition
      Other approaches
      Learning with background knowledge
   5.8 Applications of semantic relations
      5.8.1 Ontology Construction
      5.8.2 Question Answering
      5.8.3 Information Retrieval
   5.9 Conclusions

6 **MACHINE LEARNING METHODS**
   6.1 Machine learning methods
      6.1.1 General notions
      6.1.2 Individual classifiers
      6.1.3 Ensemble methods
      Bagging

7 **BACKGROUND**

8 **SEMANTIC RELATIONS IN A NUTSHELL**
   8.1 Introduction
   8.2 Representation
   8.3 Relation types
   8.4 Properties
      8.4.1 Linguistic view
         Universality
         Productivity
         Prototypicality
   8.4.2 Logical properties
   8.5 Reasoning with (about) relations
      8.5.1 By humans
      8.5.2 By machine
   8.6 Learnability of relations
   8.7 Computational approaches to relation recognition
      8.7.1 Noun compounds
      8.7.2 Methods
      Hand-written patterns
      Automatic pattern acquisition
      Other approaches
      Learning with background knowledge
   8.8 Applications of semantic relations
      8.8.1 Ontology Construction
      8.8.2 Question Answering
      8.8.3 Information Retrieval
   8.9 Conclusions

9 **MACHINE LEARNING METHODS**
   9.1 Machine learning methods
      9.1.1 General notions
      9.1.2 Individual classifiers
      9.1.3 Ensemble methods
      Bagging
