## Contents

1. **Introduction and research problem analysis** ........................................... 1  
   1.1 Introduction .................................................................................................. 1  
   1.2 Collaborative networked organizations and breeding environments .......... 3  
      1.2.1 Virtual organizations Breeding Environment - VBE ......................... 5  
      1.2.2 Addressed challenges and gained advantages for organizations joining  
          VBEs .................................................................................................. 6  
      1.2.3 Readiness for joining VBEs ................................................................. 8  
      1.2.4 VBE management and the need for trust ........................................... 9  
   1.3 Background on definition of trust and its emerging base concepts .......... 14  
      1.3.1 Diversities among definitions of trust .................................................. 14  
      1.3.2 Base concepts of trust ......................................................................... 17  
   1.4 Research motivation and problem area description .................................. 17  
   1.5 Research questions, objectives, and scope of the thesis ......................... 20  
   1.6 Research methodology ............................................................................. 23  
   1.7 The ECOLEAD project and related scientific publications ................. 24  
      1.7.1 The ECOLEAD project ........................................................................ 24  
      1.7.2 Scientific publications related to the dissertation ............................... 29  
   1.8 Thesis structure .......................................................................................... 30  
   1.9 Chapter discussion and conclusion ............................................................ 31  

2. **Aspects and characterization of trust** ..................................................... 33  
   2.1 Introduction .................................................................................................. 33  
   2.2 Traditional practices on trust ..................................................................... 34  
      2.2.1 Inter-personal versus inter-organizational trust .................................. 34  
      2.2.2 Trust among individuals ..................................................................... 35  
      2.2.3 Trust in different disciplines ............................................................... 36  
   2.3 Trust among organizations in VBEs ............................................................ 38  
      2.3.1 Importance of creating trust between organizations in VBEs .......... 38  
      2.3.2 Antecedents of trust between organizations in VBEs .......................... 38  
      2.3.3 Main related challenges in trust studies for VBEs ............................... 40  
      2.3.4 Boundary characteristics of rational and subjective trust ................... 40  
      2.3.5 Main concepts related to inter-organizational trust ............................ 42  
      2.3.6 Different aspects of trust in organizations - applied to the proposed  
          approach ............................................................................................... 47  
   2.4 Characterization of trust related data for organizations in VBEs .......... 50
A. List of author’s publications ................................................................. 173

B. TrustMan validation with standard indicators and against related systems .................................................................................. 177
   B.1 Applied standard indicators ................................................................. 177
   B.2 Related trust management systems ...................................................... 181
   B.3 Evaluation of TrustMan system with standard indicators .................... 182

C. Empirical evaluation – questionnaire ................................................... 183
   C.1 VBE networks involved in evaluation ................................................. 183
   C.2 Description of the questionnaire ......................................................... 184

Bibliography ........................................................................................................ 185

Summary ............................................................................................................. 191

Samenvatting .................................................................................................... 193

Acknowledgements ........................................................................................... 195
