Figures

1.1 Crop development policies in three historical Agro-Food orders ........................................24
2.1 Wheat exports by main producing countries (1851-1899) ...........................................31
3.1 Wheat and rye exports by main producing countries (1924-1938) .................................56
3.2 Centres of origin of the most important crops according to Vavilov (1929) ..................58
4.1 Yield increase of maize, wheat, and all crops between 1910 and 1970 in the USA ........76
5 Regional shares in world exports and imports of cereals, fruit and vegetables in 1970 and 1996, in % ..........................................................112
5.1 Export shares: cereals ........................................................................................................112
5.2 Export shares: wheat ..........................................................................................................112
5.3 Export shares: maize ........................................................................................................ 112
5.4 Export shares: soyabean ................................................................................................... 112
5.5 Export shares: fruit and vegetables ...................................................................................112
5.6 Import shares: cereals .......................................................................................................113
5.7 Import shares: wheat .........................................................................................................113
5.8 Import shares: maize ........................................................................................................113
5.9 Import shares: soyabean ...................................................................................................113
5.10 Import shares: fruit and vegetables ................................................................................113
5.11 Shares in the world agricultural seed market by country (1994) .................................114
5.12 Annual growth of rates public agricultural R&D spending in 22 OECD countries and 131 developing countries, in % .........................................................114
5.13 Comparison of public and privately performed agricultural R&D in 22 OECD countries .................................................................116
5.14 The Monsanto conglomerate (1998) ............................................................................119
5.15 The DuPont/Pioneer conglomerate (1999) ................................................................120
5.16 The ELM/Pulsar conglomerate (1998) ........................................................................121
5.17 The Novartis conglomerate (1998) ................................................................................122
5.18 The Rhone Poulenc/Limagrain conglomerate (1998) ..................................................123
5.19 The Zeneca/Cosun conglomerate (1998) .....................................................................124
6.1 Typology of agricultural production strategies ................................................................159
6.2 Maize and wheat imports in percentage of national production in Chile (1990-1996) .....................................................................................................................163
6.3 Barley, maize and wheat imports in percentage of national production in Colombia (1990-1996) .................................................................................................164
