List of tables

1.1 Coverage of migration, environment and development linkages 15
3.1 Trend in North-South migration propensities (1931-2000) 44
3.2 Migration causes of Dagara settlers in the Brong Ahafo Region 54
4.1 Population growth in the Brong Ahafo Region (1960-2000) 72
4.2 Survey sample of Dagara settlers 78
4.3 Perception of differences in farming methods by settlers and natives 83
4.4 Socio-economic profile by migrant status, ecological zone and market access 86
4.5 Land tenure (% of fields) 87
4.6 Farm size (acres) 88
4.7 Crop mix (% of farmers cultivating each crop) 90
4.8 Crop sales (¢ 1000) 90
4.9 Tools used for land preparation and weeding (% of farmers) 91
4.10 Farming techniques (% of farmers) 92
4.11 Farm expenditure (¢ 1000) 93
4.12 Tree cutting and planting 94
5.1 Uses of migrant savings and remittances 120
6.1 Out-migration, population density and agricultural productivity 140
6.2 Out-migration, population density and agricultural productivity, subset of districts
   in the first half of the Malthus-Boserup curve 141
7.1 Production of five principal crops in Lawra District (1993-2007) 153
7.2 Production of five principal crops in the Upper West Region (1993-2007) 153
7.3 Perceptions of agricultural and environmental change in Nandom 157
7.4 An overview of external interventions in agriculture and environment 160
7.5 Demographic and economic characteristics of the surveyed households 164
7.6 Population density and migration characteristics in the research villages 172
7.7 Correlations between migration and household sex and age structure 176
7.8 Household composition, migration propensities and farm characteristics 178
7.9 Household composition and adoption of labour intensive farm practices 181
7.10 Migration propensities and adoption of labour intensive farm practices 181
7.11 Other drivers of labour-led intensification 182
7.12 Remittances of children and siblings 186
7.13 Remittances by level of migrants’ education 186
7.14 Distribution of remittances among income groups 188
7.15 Use of remittances and investments in agriculture 189
7.16 Sources of investment in crop cultivation 190
7.17 Remittances and capital-led intensification 192
7.18 Other drivers of capital-led intensification 193
7.19 Other factors explaining farm investments 193
7.20 Return migration and farm characteristics 196
7.21 Return migration and income groups 197

List of figures

1.1 Disciplinary embedding, academic debates and research questions 10
3.1 Annual population growth in six inter-censal periods (1911-2000) 43
3.2 Rainfall and migration propensities in Northern Ghana (1960-2000) 52
3.3 Annual average NDVI trend in Northern Ghana (1982-2006) 52
4.1 Land degradation in the Brong Ahafo Region (LANDSAT, 1973 – 2003) 64
4.2 Average monthly NDVI and NDVI trend in Wenchi District (1982-2006) 66
4.3 Population density (inh/km$^2$) in the Brong Ahafo Region (1960-2000) 72
6.1 The Malthus-Boserup curve between population density and crop yields 126
6.2 Simple model of migration, population density and agricultural productivity 128
6.3 Causal model of migration, population density and agricultural productivity 138
6.4 Migration, population density and agricultural productivity in N-Ghana 143
6.5 Findings for districts in the first half of the Malthus-Boserup curve 144
6.6 Policy implications 147
7.1 Annual rainfall (mm) in Nandom (1980-2008) 150
7.2 Agricultural production in Lawra and the Upper West Region (1993-2007) 154
7.3 Prices of the principal food crops cultivated in Lawra District (1991-2008) 155
7.4 Population density and migration indicators in the research villages 173

List of maps

1.1 Map of Ghana showing the research areas 4
2.1 Inter-regional migration in Ghana 25
2.2 In-migration per district in Ghana (%) 26
2.3 Out-migration per district in Ghana (%) 26
2.4 Net-migration per district in Ghana (%) 26
2.5 Rural population density per district in Ghana 26
2.6 Average vegetation density (NDVI) per district in Ghana (1982-2006) 28
2.7 Average annual rainfall (mm) per district in Ghana (1982-2002) 28
2.8 NDVI change per district in Ghana (1982-2006) 28
2.9 Rainfall change per district in Ghana (1982-2002) 28
2.10 Average Maximum NDVI per district in Ghana (1982-2006) 34
2.11 Maximum NDVI change per district in Ghana (1982-2006) 34
2.12 Average Minimum NDVI (1982-2006) 34
2.13 Minimum NDVI change (1982-2006) 34
3.1 Map of North-South migration in Ghana (2000) 45
3.2 North-South migration propensities per district in Northern Ghana (2000) 46
3.3 Average annual rainfall per district in Northern Ghana (1982 to 2002) 47
3.4 Average NDVI per district in Northern Ghana (1982-2006) 48
3.5 Average crop yields per district in Northern Ghana (1998-2002) 49
3.6 Rural population density per district in Northern Ghana (2000) 49
4.1 Ghana, Dagara migration and coverage of the LANDSAT image 67
4.2 Dagara in-migration per district of the Brong Ahafo Region 70
4.3 Administrative map of the Brong Ahafo Region in 1960 72
4.4 The study area and its location in the Brong Ahafo Region 78
6.1 Population density and growth, crop yields and migration in Northern Ghana 132
6.2 Rainfall, soils and rain use efficiency in Northern Ghana 134
7.1 Location of Nandom and population density in the survey villages 163

List of pictures

1 The author with his principal assistant and a respondent in Nandom xvi
2 The author’s host family in Nandom xvii
3 The Nandom station with on the left the Kumasi bus 6
4 Street view in Wenchi Town with on the left a charcoal truck 6
5 Farmer in Nandom gathering stones to sell to builders 31
6 Migrant farmer in front of his house in Droboso 31
7 Empty lands in the Northwest of Wenchi District 56
8 A migrant farmer’s granary in Droboso 59
9 Farmer drying her meagre harvest on the roof 110
10 Young migrant leaving home (Nandom-Kogle) 114
11 Woman brewing pito 114
12 Building activities in Mr Kontana’s mud castle 114
13 Farming group preparing a field in Nandom 200
14 An important change in the local farming system is the use of ploughs 200
