Over the last four years that I have been working towards my PhD degree, I have benefited from the help, sympathy, and encouragement offered by many people. Without their support and guidance, I would not be able to make my accomplishments come true. I would like to take the opportunity here to express my appreciation.

First and foremost, I would like to thank my co-promotor, Dr. Andy Pimentel for giving me the opportunity to do my PhD studies in the CSA group at the University of Amsterdam. He gave me the full freedom to pursue my own direction of research and ideas, provided me an excellent working environment and helped me a lot to improve my writing skills. I would also like to thank my promotor Prof. Chris Jesshope for his interest and support to our research. I would like to extend my gratitude to my PhD examination committee, especially to Prof. Jarke J. van Wijk, whose detailed comments helped me to improve my thesis.

I am thankful to my former advisors in Ferdowsi University of Mashhad, Dr. Mohsen Kahani, Prof. Mahmoud Naghibzadeh, Dr. Hossein Deldari, and Dr. Mohammad Hossein Yaghmaee. I learned a lot from them during my master and bachelor studies.

I am very grateful to all the members of computer systems architecture group. A very special thanks goes to Roberta Piscitelli, Peter van Stralen, Mark Thompson and Simon Polstra for their help and support. I would also like to express my sincere gratitude to Erik Hitipeuw for his assistance in resolving various bureaucratic issues. I am also thankful to Narges Zarrabi and Narges Javaheri for being my best friends and supportive whenever I needed them. I also greatly appreciate the help, cooperation and friendship of all my Iranian friends in the Netherlands.

I am highly indebted to my parents for their unconditional love and support. They provided me with the best possible education that I could think of. This would not have been possible without their prayers, blessings and sacrifices. I am also thankful to my sisters Maryam and Marjaneh for their kindness and support.

Last but not least, I am extremely grateful to my dear husband Mojtaba. He is always my main source of inspiration and motivation. He has definitely been my best counselor and a wonderful caring person throughout the years.
