Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

Table of Contents

Chapter 1 – General Introduction: Green leaf volatiles as a ‘cure-all’ – biosynthesis, regulation and function.	7
Chapter 2 – Oxylin channeling in <i>Nicotiana attenuata</i> : Lipoxygenase 2 supplies substrates for green leaf volatile production.	31
Chapter 3 – Insects betray themselves in nature to predators by rapid isomerization of green leaf volatiles.	57
Chapter 4 – Isomerization of green leaf volatiles alters the behavioral responses of female <i>Manduca</i> moths.	95
Chapter 5 – Purification and properties of a (3Z):(2E)-enal isomerase from <i>Manduca sexta</i> ’s oral secretion.	131
Chapter 6 – General Discussion	151
Summary	167
Samenvatting	169
