## Contents

### 1 Introduction
1.1 Motives for this study 1
1.2 Visual impairment 3
1.3 Overview 8

### 2 Personal networks and social support
Introduction 9
2.1 Personal network 9
   2.1.1 Structural network aspects 11
   2.1.2 Functional network aspects 12
2.2 Theories with respect to networks and support 14
   2.2.1 Rational-choice theory 14
   2.2.2 Social capital 15
   2.2.3 Socio-ecological model 16
2.3 Relevance of network research 17
   2.3.1 Psychosocial characteristics 18
   2.3.2 Relevance of network aspects 20
2.4 Networks, social support and psychosocial development of blind and visually impaired persons 22
   2.4.1 Results concerning social contacts 22
   2.4.2 Results concerning psychosocial characteristics 26
2.5 The meaning of personal networks and social support: a theoretical framework for this study 29

### 3 Research method
Introduction 33
3.1 Domain 33
3.2 Research questions 34
3.3 Method of data collection 37
   3.3.1 Face-to-face interview 37
   3.3.2 Computer Assisted Data Collection (CADAC) 37
   3.3.3 Selecting reference projects 39
3.4 Designing the questionnaire 40
   3.4.1 Instruments from the Leyden study 40
   3.4.2 Instruments from the Utrecht study 42
   3.4.3 Other instruments 44
   3.4.4 Programming the questionnaire 47
3.5 Procedures 47
3.6 Pilot study; testing the method and procedures 49
   3.6.1 Design 49
   3.6.2 Experiences and adjustments 50
   3.6.3 Target group 53
# Fieldwork

**Introduction**

## 4.1 Research participants in the main study

### 4.1.1 Selection and response

### 4.1.2 Nonparticipation and generalization

### 4.1.3 Characteristics of research participants

## 4.2 Experiences with the interviews

### 4.2.1 Participants’ experiences

### 4.2.2 Interviewers’ experiences

### 4.2.3 Concept mapping

## 4.3 Data quality

## 4.4 Analyses

# Results: Personal networks

**Introduction**

## 5.1 Network aspects of blind and visually impaired adolescents

### 5.1.1 Structural network aspects

### 5.1.2 Functional network aspects

## 5.2 Correlations between network aspects

## 5.3 Differences between subgroups

### 5.3.1 Structural network aspects

### 5.3.2 Functional network aspects

## 5.4 Comparison with sighted adolescents

### 5.4.1 Comparison of structural network aspects

### 5.4.2 Comparison of functional network aspects

## 5.5 Summary

# Results: Psychosocial characteristics

**Introduction**

## 6.1 Psychosocial characteristics, well-being and loneliness of blind and visually impaired adolescents

### 6.1.1 Psychosocial characteristics of blind and visually impaired adolescents

### 6.1.2 Well-being and loneliness of blind and visually impaired adolescents

## 6.2 Correlations between psychosocial characteristics, well-being and loneliness

## 6.3 Differences between subgroups

### 6.3.1 Differences between subgroups: psychosocial characteristics

### 6.3.2 Differences between subgroups: well-being and loneliness

## 6.4 Comparison with sighted adolescents

### 6.4.1 Comparison of psychosocial characteristics

### 6.4.2 Comparison of well-being and loneliness

## 6.5 Summary
7 Results: The meaning of personal networks

7.1 What is Structural Equation Modeling? 135

7.2 Confirmatory factor analyses
7.2.1 Confirmatory factor analyses: network aspects 136
7.2.2 Confirmatory factor analyses: adjustment 138
7.2.3 Confirmatory factor analyses: well-being 143

7.3 Correlational results: meaning of network aspects for visually impaired adolescents
7.3.1 Meaning of network aspects for adjustment 145
7.3.2 Meaning of network aspects for well-being and loneliness 147

7.4 Explanatory models: meaning of network aspects
7.4.1 Meaning of network aspects for visually impaired adolescents 148
7.4.2 Effect of background characteristics 151
7.4.3 Comparison of our results 155

7.5 Summary 157

8 Conclusions & discussion

8.1 Personal network
8.1.1 Visually impaired adolescents 162
8.1.2 Comparison of results 164

8.2 Psychosocial characteristics
8.2.1 Visually impaired adolescents 171
8.2.2 Comparison of results 174

8.3 Associations between network aspects and psychosocial characteristics, well-being and loneliness
8.3.1 Visually impaired adolescents 177
8.3.2 Comparison of results 180

8.4 Discussion
8.4.1 Content 182
8.4.2 Methodology 184

8.5 Recommendations 186

Summary 189

Samenvatting 197
