## **The fast and the furious** **disorders of neutrophil development and function**

1. Numbers count! – *This thesis*
2. A requirement for functional redundancy in the MKL/SRF pathway is the presence of both MKL1 and MKL2 proteins in the cell type.  
– *This thesis*
3. Even when the killing capacity of neutrophils is intact, as long as these innate cells cannot reach the site of infection they are useless.  
– *This thesis*
4. The actual contribution of NETs to neutrophil host defense is still unclear. – *This thesis*
5. By better understanding the biology behind a disease, clinical decision making is greatly supported. – *This thesis*
6. Inborn errors of immunity are rare diseases which teach you a lot about how the immune system works. – *This thesis*
7. Literatuur – (non)fictie, journalistiek of wetenschappelijk – is zeker niet altijd waar. – *Taco Kuijpers*
8. One cannot think well, love well, sleep well, if one has not dined well.  
– *Virginia Woolf*
9. Take it easy, don't let the sound of your own wheels make you crazy. – *Eagles*
