</thead>
<tbody>
<tr>
<td><strong>General introduction</strong></td>
</tr>
<tr>
<td><strong>Aim and outline of the thesis</strong></td>
</tr>
<tr>
<td><strong>PART I  Epidemiology</strong></td>
</tr>
<tr>
<td>Chapter 1  Rising prevalence and burden of disease of inflammatory bowel disease in a population-based cohort in The Netherlands</td>
</tr>
<tr>
<td><strong>PART II  Ileocecal Crohn’s disease</strong></td>
</tr>
<tr>
<td>Chapter 2  Laparoscopic ileocolic resection versus infliximab treatment of distal ileitis in Crohn’s disease: a randomised multicenter trial (LIRIC-trial)</td>
</tr>
<tr>
<td>Chapter 3  Abdominal abscess in Crohn’s disease: multidisciplinary management</td>
</tr>
<tr>
<td>Chapter 4  The association between intensified medical treatment, time to surgery and ileocolic specimen length in Crohn’s disease</td>
</tr>
<tr>
<td>Chapter 5  Single port laparoscopic ileocolic resection for Crohn’s disease: a multicentre comparison with multi-port laparoscopy</td>
</tr>
<tr>
<td>Chapter 6  The role of single port surgery in Crohn’s disease: a review of current evidence</td>
</tr>
<tr>
<td>Chapter 7  Is the conventional randomised controlled trial still the holy grail? Lessons learned from the LIRIC trial</td>
</tr>
</tbody>
</table>
## PART III  Perianal Crohn’s disease

<table>
