It is not permitted to download or to forward/distribute the text or part of it without the consent of the author(s) and/or copyright holder(s), other than for strictly personal, individual use, unless the work is under an open content license (like Creative Commons).

Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, P.O. Box 19185, 1000 GD Amsterdam, The Netherlands. You will be contacted as soon as possible.

Contents

1.	Regulation of protein levels: balancing synthesis and degradation.	9
2.	Effects of azidohomoalanine on bacterial growth, viability and protein function.	27
3.	Identification of newly synthesized <i>E. coli</i> proteins by enrichment of azidohomoalanine-labelled peptides using diagonal chromatography	51
4.	Immediate changes in both protein levels and newly synthesized proteins following a change in growth temperature in <i>E. coli</i> .	73
5.	Proteome-wide alterations in <i>E. coli</i> translation rates upon anaerobiosis	93
6.	General Discussion	111
7.	Summary & Samenvatting	123
	Addenda	133
	List of abbreviations	147
	References	151
	List of Publications	159
	Dankwoord	163

“Our ideas held no water,
but we used them like a dam.”

Isaac Brock
