# Contents

1. Introduction: The Netherlands as a hybrid society 1  
   1.1 The hybrid realm 1  
      1.1.1 Private organizations with sovereignty 4  
      1.1.2 Quasi-autonomous non-governmental organizations 5  
      1.1.3 Hybrid quangos in waste management as subject of this dissertation 7  
   1.2 A short history of public service delivery in The Netherlands 8  
      1.2.1 Private initiative 8  
      1.2.2 Growing state intervention 9  
      1.2.3 Privatization 10  
      1.2.4 Managerialism 11  
      1.2.5 Governance, the collaborative challenge and joined-up government 12  
   1.3 Hybrid organizations as contested but unknown phenomena 14  
      1.3.1 Discussion and criticism… 14  
      1.3.2 …but also great expectations 15  
      1.3.3 A normative debate 15  
      1.3.4 Only a Dutch debate? 17  
   1.4 Societal and scientific relevance 19  
   1.5 Research questions 20  
   1.6 Outline 21  

2. Defining hybrid organizations – Dimensions of hybridity 23  
   2.1 Introduction 23  
   2.2 A normative dichotomy 23  
   2.3 Patterns of government-market interrelations 25  
   2.4 Ideal-typical public and private organizations 26  
   2.5 Differences between public and private organizations 28  
      2.5.1 Distinctive environmental factors 30  
      2.5.2 Organization-environment transactions 30  
      2.5.3 Organizational roles, structures and processes 30
2.6 Dimensions of hybridity

2.6.1 Introduction

2.7 Multidimensional model used in this study

2.7.1 Structure and activities

2.7.2 Strategy and culture

2.7.3 Governance and politics

2.7.4 The application of this model

2.8 Summary

3. The effects of hybridity – An anatomy of the Dutch debate

3.1 Introduction

3.2 The synergy argument

3.2.1 Roel in ’t Veld

3.2.2 Scientific Council for Government Policy

3.2.3 Social and Economic Council of The Netherlands

3.2.4 Other advocates

3.2.5 Summary: the benefits of hybridity

3.3 The corruption argument

3.3.1 Martin Simon

3.3.2 The task group Cohen

3.3.3 Cohen’s aftermath: on the road to banning hybridity

3.3.4 Other critics

3.3.5 Summary: the risks of hybridity

3.4 An evaluation of both approaches

3.5 Summary

4. Research strategy

4.1 Introduction

4.2 Literature overview and pilot study

4.3 Case study research

4.3.1 Reasons for choosing this method

4.3.2 Case selection

4.3.3 Data collection

4.3.4 Data analysis
4.4 Validity issues 78
4.5 Timeline 79

5. Hybrid organizations in Dutch waste management 81
5.1 Introduction 81
5.2 Public interests in waste management 81
5.3 Waste management as big business 83
5.4 Dutch waste policy 84
5.5 Waste collection and disposal 86
   5.5.1 Market for waste collection 86
   5.5.2 Market for waste disposal 89
5.6 Debate about hybridity 89
5.7 Summary 92

6. Case Study 1: TOM 93
6.1 Introduction 93
6.2 History and background 93
   6.2.1 Structure and activities 93
   6.2.2 Strategy and culture 95
   6.2.3 Governance and politics 96
6.3 Hybridity and its effects 97
   6.3.1 Structure and activities 97
   6.3.2 Strategy and culture 99
   6.3.3 Governance and politics 102
6.4 Key findings 104

7. Case study 2: DICK 109
7.1 Introduction 109
7.2 History and background 109
   7.2.1 Structure and activities 109
   7.2.2 Strategy and culture 111
   7.2.3 Governance and politics 113
7.3 Hybridity and its effects 113
   7.3.1 Structure and activities 113
   7.3.2 Strategy and culture 116
   7.3.3 Governance and politics 118

7.4 Key findings 122

8. Case study 3: HARRY 127
   8.1 Introduction 127
   8.2 History and background 128
      8.2.1 Structure and activities 128
      8.2.2 Strategy and culture 129
      8.2.3 Governance and politics 129
   8.3 Hybridity and its effects 129
      8.3.1 Structure and activities 129
      8.3.2 Strategy and culture 133
      8.3.3 Governance and politics 135
   8.4 Key findings 137

9. Comparison of findings 143
   9.1 Introduction 143
   9.2 Comparison of case studies’ hybridness 143
      9.2.1 Review: Agencies, enterprises and hybrid organizations 143
      9.2.2 History and background 144
      9.2.3 Hybridity and its effects 145
      9.2.4 Summary 148
   9.3 Comparison of effects of hybridity and of strategies 150
      9.3.1 Review: Positive and negative effects of hybridity 150
      9.3.2 Economic effects of case organizations’ hybridness 151
      9.3.3 Performance related effects 153
      9.3.4 Cultural effects 154
      9.3.5 Governance related effects 156
   9.4 Discussion of findings 157
      9.4.1 Economic effects 159
      9.4.2 Performance related effects 159
      9.4.3 Cultural effects 160
      9.4.4 Governance related effects 160

X
9.5 Summary

10. Conclusions and recommendations

10.1 Introduction

10.2 Conclusions

10.2.1 The Netherlands as a hybrid society
10.2.2 Defining hybrid organizations – Dimensions of hybridity
10.2.3 The effects of hybridity – An anatomy of the Dutch debate
10.2.4 Research strategy
10.2.5 Hybrid organizations in Dutch waste management
10.2.6 Case studies: TOM, DICK and HARRY

10.3 Research questions revisited

10.3.1 Analytical research questions
10.3.2 Empirical research questions

10.4 Dealing with the limitations of this research

10.4.1 Focus on public/private hybrid organizations
10.4.2 Validity issues
10.4.3 Summary of Brandsen et al.’s findings
10.4.4 Comparison

10.5 Discussion and recommendations

10.5.1 Practical recommendations
10.5.2 Scientific recommendations

Appendix 1: Sensitizing concepts

Appendix 2: Interviews

Appendix 3: Sources Case Studies
