### PART I - Endoscopic Resection:

**Chapter 1**  
Endoscopic resection of early oesophageal and gastric neoplasia.  
*Best Pract Res Clin Gastroenterol 2008; 22: 929-943*

**Chapter 2**  
Do we still need endoscopic ultrasound (EUS) in the work-up of patients with early oesophageal neoplasia? A retrospective analysis of 131 cases.  
*Gastrointest Endosc 2011; 73: 662-668*

**Chapter 3**  
A randomized trial comparing the ER-cap technique and the multiband mucosectomy technique for piecemeal endoscopic resection of early Barrett's neoplasia.  
*Gastrointest Endosc 2011; 74: 35-43*

**Chapter 4**  
Stepwise radical endoscopic resection for eradication of Barrett's oesophagus with early neoplasia in a cohort of 169 patients.  
*Gut 2010; 59: 1169-1177*

### PART II - Radiofrequency Ablation:

**Chapter 5**  
Radiofrequency ablation for total Barrett's eradication: a description of the endoscopic technique, its clinical results and future prospects.  
*Endoscopy 2008; 40: 1033-1040*

**Chapter 6**  
Eradication of Barrett's oesophagus with early neoplasia by radiofrequency ablation, with or without endoscopic resection.  
*J Gastrointest Surg 2008; 12: 1627-1636*

**Chapter 7**  
Efficacy of radiofrequency ablation combined with endoscopic resection for Barrett's oesophagus with early neoplasia.  
*Clin Gastroenterol Hepatol 2010; 8: 23-29*

**Chapter 8**  
A multi-centre randomized trial comparing stepwise radical endoscopic resection versus radiofrequency ablation for Barrett's oesophagus containing high-grade dysplasia and/or early cancer.  
*Gut 2011; 60: 765-773*

**Chapter 9**  
Radiofrequency ablation combined with endoscopic resection, for eradication of Barrett's oesophagus containing early neoplasia in 130 patients: results of a European multicentre study [EURO-II].  
*Preliminary results of the EURO-II study, not submitted*

**Chapter 10**  
Properties of the neosquamous epithelium after radiofrequency ablation for Barrett epithelium with neoplasia.  
*Am J Gastroenterol 2009; 104: 1366-1373*

**Chapter 11**  
Pseudo-buried Barrett's post radiofrequency ablation for Barrett's oesophagus.  
*Submitted*
