### Formal Correction: Error in Results

Posted by [plosbiology](#) on 13 Mar 2013 at 22:07 GMT

In the fifth sentence of the third paragraph of the "Behavioral Markers of Evidence Accumulation Over Time" section of the Results, the relevant sentence should be: We observed a monotonically increasing impact of arrows on the decision as a function of time for HV stimuli ( $T_{15}=3.74$ ,  $p=0.002$ ), while this modulation of time was not significantly present for LV stimuli ( $T_{15}=1.36$ ,  $p=0.19$ ), leading to a significant interaction ( $T_{15}=2.90$ ,  $p=0.011$ , Figure 1F).
