ABOUT THE AUTHOR

The author of this thesis was born on the 22nd of June in Gouda, The Netherlands. In 1998 she graduated from the Coornhert Gymnasium (Gouda). Before having drawn a place in the Medical School at the Leiden University Medical Centre in 1999, she studied Health Sciences at the Maastricht University for one year. During her medical study she also worked as a student-assistant for practical’s and tutorials at the anatomy department of Leiden University Medical Centre, and was coordinator of the student pool for cord blood collection for blood transfusion at the department of Gynecology and Obstetrics. In 2001 she was secretary of the board of the Medical Faculty (M.F.L.S), also responsible for Public Relations. During her internships she developed a special interest for Ear Nose Throat Surgery at the Haga Hospital in The Hague, where she investigated cochleotoxicity and vestibulotoxicity of Tobramycin in Cystic Fibrosis patients (supervisor Dr. E. Rijntjes). In 2006, the author obtained her medical degree. One month later, she started with the research project in the Netherlands Cancer Institute (promoter prof. Dr. F.J.M. Hilgers, co-promoter Dr. S.H. Muller), which has resulted in this thesis. Since January 2008, she is a member (and since 2009 vice-president) of the board of the national association for residents (LVAG), and participates as a resident-member in various committees and working groups. In May 2009, she started her residency program in Ear Nose Throat and Head and Neck Surgery (supervisor Prof. Dr. W.J. Fokkens, and Prof. Dr. S. van der Baan) at the Academic Medical Centre of the University of Amsterdam. In June 2011, the author shall get married to Frank Beeres.
