It is not permitted to download or to forward/distribute the text or part of it without the consent of the author(s) and/or copyright holder(s), other than for strictly personal, individual use, unless the work is under an open content license (like Creative Commons).

Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

Table of Contents

1. General Introduction	7
2. Are there multiple visual short-term memory stores?	19
3. Detailed sensory memory, sloppy working memory	37
4. Magnetic stimulation of the dorsolateral prefrontal cortex dissociates fragile visual short-term memory from visual working memory	55
5. V4 activity predicts the strength of visual short-term memory representations	77
6. Brain anatomy constrains the capacity of sensory memory and working memory	95
7. Summary and Discussion	107
8. References	117
9. Nederlandse samenvatting	129
Dankwoord	132
