Page 6, line 1	“aims included an effort to contribute knowledge about the dynamics and circumstances behind the failure to link to care those eligible for ART, as well as to map the reasons that uptake of ART was delayed.”	“My research focus had to fit in with the overall aims of the MaxART programme. Hence my aims included an effort to contribute knowledge about the dynamics and circumstances behind the failure to link to care those eligible for ART, as well as to map the reasons that uptake of ART was delayed.”
