1 Task-based performance in a second language: cognitive and interactive aspects 1
   1.1 Introduction ........................................... 1
   1.2 Outlook coming chapters ........................... 3
   1.3 The task-based approach ..............................
      1.3.1 Task: definition and characteristics ........ 5
      1.3.2 Principles underlying the task-based approach .. 6
      1.3.3 Task-based research ............................... 9
      1.3.4 The Limited Attentional Capacity Model .......... 10
   1.4 The Cognition Hypothesis ............................. 12
      1.4.1 Attentional allocation during task-based performance 12
      1.4.2 Interference theory and the Multiple Attentional Resources Model 15
      1.4.3 Cognitive factors of task complexity .......... 17
      1.4.4 Interactive factors of task condition .......... 20
      1.4.5 Learner factors of task difficulty .......... 22
      1.4.6 The Triadic Componential Framework .......... 23
      1.4.7 Summarizing the theoretical claims of the Cognition Hypothesis 24
   1.5 Measures of task-based performance ................. 26
      1.5.1 Basic units of speech ......................... 26
      1.5.2 Linguistic complexity ........................... 27
      1.5.3 Accuracy ........................................ 28
      1.5.4 Fluency ......................................... 29
      1.5.5 Global versus specific measures of task performance 29
   1.6 Earlier empirical investigations and open issues .......... 30
      1.6.1 Investigating cognitive task complexity .......... 30
      1.6.2 Investigating interaction ...................... 32
      1.6.3 Investigating task specific measures .......... 35
      1.6.4 Investigating native speaker task-based performance 35
   1.7 Concluding remarks ................................ 36

2 The studies in this book 37
   2.1 Goal .................................................. 37
   2.2 The claims under investigation ..................... 38
   2.3 Research questions and hypotheses ................ 40
   2.4 Design ............................................... 42
   2.5 Participants ........................................ 42
   2.6 Measures ............................................. 44
   2.7 Concluding remarks ................................ 47
# Study 1: The influence of complexity in monologic versus dialogic tasks in Dutch L2

## 3.1 The Cognition Hypothesis
- **3.1.1 Task complexity: cognitive factors**
- **3.1.2 Task condition: interactive factors**
- **3.1.3 Cognitively complex interactive tasks**
- **3.1.4 Previous research within the Cognition Hypothesis**

## 3.2 Research questions, method, and design
- **3.2.1 Method**
- **3.2.2 Production measures: accuracy, complexity, and fluency**

## 3.3 Results
- **3.3.1 Accuracy**
- **3.3.2 Complexity**
- **3.3.3 Fluency**
- **3.3.4 Summary of results**

## 3.4 Discussion
- **3.4.1 Hypothesis 1: effects of task complexity**
- **3.4.2 Hypothesis 2: effects of task condition**
- **3.4.3 Hypothesis 3: combined effects of task complexity and task condition**

## 3.5 Conclusion

# Study 2a: Effects of task complexity and interaction on L2-performance

## 4.1 Attention and task performance
- **4.1.1 Cognitive task complexity**
- **4.1.2 Interaction**
- **4.1.3 Cognitive task complexity and interaction**

## 4.2 The present study
- **4.2.1 Experimental design**

## 4.3 Results
- **4.3.1 Effects on linguistic complexity**
- **4.3.2 Effects on accuracy**
- **4.3.3 Effects on fluency**

## 4.4 Discussion
- **4.4.1 Effects of increased cognitive task complexity?**
- **4.4.2 Interaction and L2-performance**

## 4.5 Conclusion and directions for future research and practice

# Study 2b: The use of conjunctions in cognitively simple versus complex L2-tasks

## 5.1 Cognitive task complexity and the Cognition Hypothesis

## 5.2 Global versus specific measures

## 5.3 The present study
- **5.3.1 Research questions and hypotheses**
- **5.3.2 Method**

## 5.4 Results
- **5.4.1 The use of conjunctions**
- **5.4.2 Focusing on specifically task relevant conjunctions**

## 5.5 Discussion
- **5.5.1 The use of conjunctions in cognitively simple versus complex tasks**
- **5.5.2 The factor ± few elements**
- **5.5.3 Good measures of task performance**

## 5.6 Summary and conclusion
6 Summary of the findings, discussion, and implications

6.1 Introduction

6.2 Theoretical basis
   6.2.1 The claims of the Cognition Hypothesis
   6.2.2 Alternative accounts on cognitive task complexity and interaction
   6.2.3 The hypotheses under investigation

6.3 Empirically investigating effects of cognitive task complexity and interaction
   6.3.1 Experimental studies
   6.3.2 Effects of cognitive task complexity
   6.3.3 Effects of interaction
   6.3.4 Combined effects of cognitive task complexity and interaction
   6.3.5 Summary of results

6.4 Discussion
   6.4.1 Cognitive task complexity
   6.4.2 Interaction
   6.4.3 Cognitive task complexity and interaction in combination
   6.4.4 Global versus specific measures of task performance
   6.4.5 The benefits of a native speaker baseline

6.5 Theoretical implications
   6.5.1 Cognitive and interactive factors of task design
   6.5.2 Manipulating cognitive task complexity
   6.5.3 Manipulating interaction
   6.5.4 Manipulating cognitive task complexity by interaction
   6.5.5 Measuring task-based L2-performance

6.6 Practical implications
   6.6.1 Challenging tasks may include many elements
   6.6.2 Learning and testing by monologic and dialogic tasks
   6.6.3 Sequencing tasks

6.7 Summary

A Appendices to study 1
   A.1 Proficiency task
   A.2 Score sheet for the proficiency task
   A.3 Background information sheet
   A.4 Tasks and instructions
   A.5 Examples of transcripts

B Appendices to study 2
   B.1 Proficiency task
   B.2 Background information sheet for L2-learners and L1-speakers
   B.3 Perceived task difficulty assessment sheet
   B.4 Tasks and instructions
   B.5 Examples of transcripts
