[†] Private pharmacy B was a key distributor of anticancer medicines at wholesale prices to all buyers.

⁺ From these pharmacies, prices vary as indicated; according to the company supplying the drugs. This was the popular pricing criterion for pharmacies in the central business district and adjacent streets. Most private pharmacists referred to the price guide in a Textbook: Kimotho, J.H. (ed) 2006/2007 (Seventh Edition) *East African Pharmaceutical Loci: A regional drug index for Medical Practitioners*. Nairobi: Pharmaceutical Loci publishers.
