Work values: Their emergence and their consequences for labour market behaviour

Putman, L.S.

Citation for published version (APA):
Putman, L. S. (2013). Work values: Their emergence and their consequences for labour market behaviour.
## Contents

### 1 Introduction

1.1 The causes and consequences of work values  
1.2 What are (work) values?  
1.3 The origins of work values  
   *Are employee work values systematically related to labour market characteristics?*  
1.4 The impact of work values on labour market behaviour  
   *Are work values related to the decision of workers to change jobs voluntarily?*  
   *Can work values explain forced job endings among male and female workers?*  
   *Do peers affect the decision of workers to change jobs voluntarily?*  
1.5 Visual overview of the study  
1.6 Research approach  
   *European Value Study (EVS)*  
   *Data of the Dutch Institute of Labour Studies (OSA)*  
References  

### 2 Labour market characteristics and individual work values

2.1 Introduction  
2.2 Dimensions of work values:  
   *the extrinsic and intrinsic work orientation*  
2.3 Work values and the effect of labour market characteristics  
2.4 Control variables: the effect of individual characteristics  
   on work values  
2.5 Data and methods  
   *Dependent variables: the extrinsic and intrinsic work orientation*  
   *Independent variables: labour market characteristics*  
   *Control variables: individual characteristics*  
2.6 Results  
2.7 Conclusions  
References  

### 3 Work values and voluntary job mobility among Dutch employees

#### 3.1 Introduction

#### 3.2 Types of work values and their effects

*The extrinsic and intrinsic aspects of work*

*Effects of work values on labour market behaviour*

*Hypotheses*

#### 3.3 The ‘usual’ determinants of job mobility: control variables

#### 3.4 Data and methods

*Dependent processes*

*Independent variables:*

*Work values*

*Time-constant control variables*

*Time-varying control variable*

#### 3.5 Results

#### 3.6 Conclusions

References

### 4 Work values and men’s and women’s voluntary and forced job endings

#### 4.1 Introduction

#### 4.2 Types of work values and their effects

*The extrinsic and intrinsic aspects of work*

*Effects of work values on labour market behaviour*

#### 4.3 Determinants of forced and voluntary job endings

#### 4.4 Data and methods

*Dependent processes*

*Independent variables:*

*Work values*

*Time-constant control variables*

*Time-varying control variable*

#### 4.5 Results

#### 4.6 Conclusions

References

### 5 Peers and their impact on individual voluntary job mobility in the Netherlands

#### 5.1 Introduction

#### 5.2 Peers and their impact on individual behaviour
