Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

Table of contents

Introduction	5
1.1 Background	5
1.1.1 The network description.....	5
1.1.2 From local processes to global behavior.....	7
1.1.3 Information processing.....	11
1.2 Our Thesis	23
1.3 Outline of the Dissertation	23
The diminishing role of highly connected units in the dynamical behavior of complex systems	25
2.1 Introduction	25
2.2 Results	27
2.2.1 Information dissipation time of a unit.....	27
2.2.2 Diminishing IDT of hubs	35
2.2.3 Numerical experiments with networks of Ising spins.....	39
2.3 Empirical evidence	41
2.4 Discussion	45
Information dissipation as an early-warning signal for the Lehman Brothers collapse in financial time series	49
3.1 Introduction	49
3.1.1 How information dissipation can lead to critical transitions..	50
3.1.2 The data.....	53
3.2 Results and Discussion.....	54
3.2.1 Evidence of IDL as an early-warning signal	54
3.2.2 Comparison to critical slowing down and other indicators....	56
3.3 Perspectives	57
Inferring epidemiological parameters from phylogenetic information for the HIV-1 epidemic among MSM	60
4.1 Introduction	60
4.2 Materials and methods.....	63
4.2.1 Current knowledge about the epidemiological parameters....	63
4.2.2 Simulating the HIV epidemic among MSM	65
4.2.3 Phylogenetic data	68
4.2.4 Calculating the likelihood of reproducing the cluster-size distribution.....	71
4.3 Results	73

Conclusion	79
5.1 Our contribution	79
5.2 Addressing the Thesis.....	80
5.3 Perspectives	82
Appendix to Chapter 2	86
A1 Methodology of computer simulations.....	86
A2 Results of simulations for other γ values	89
Appendix to Chapter 3	93
B1 How IDL differs from other leading indicators.....	93
B2 IDL in IRS data in the EUR market	94
B2.1 The EUR data	94
B2.2 Results in the EUR market.....	94
B2.3 Additional peaks in the EUR market	96
B3 Robustness of IDL as a leading indicator.....	98
B3.1 Choosing the bin size based on the data.....	103
B4 Comparison with previously introduced leading indicators.....	105
B4.1 Critical slowing down in IRS rates	105
B4.2 Spatial leading indicators	109
B4.3 The onset of a LIBOR-OIS spread as leading indicator	113
B4.4 Critical slowing down in IRS spread levels	116
B5 Verification of IDL using generated time series	119
B5.1 Generating the time series.....	119
B5.2 Results	120
References	123
Samenvatting	144
Acknowledgements	149
List of publications	150
Published work	150
In press	151
Submitted.....	151
