List of Publications

Diagnostic accuracy of MRI in differentiating hepatocellular adenoma from focal nodular hyperplasia: prospective study of the additional value of gadoxetate disodium.

Outcomes of liver resection in hepatocellular adenoma and focal nodular hyperplasia.

The use of 18F-fluoromethylcholine PET/CT in differentiating focal nodular hyperplasia from hepatocellular adenoma: a prospective study of diagnostic accuracy.

Hepatoblastoma evaluated by 18F-fluoromethyl choline PET/CT.

Von Meyenburg complexes mimicking metastatic disease at laparotomy for focal nodular hyperplasia.

Hepatocellular adenomas associated with hepatic granulomas: experience in five cases.

Differentiation of hepatocellular adenoma and focal nodular hyperplasia using 18F-fluorocholine PET/CT.

Skin autofluorescence is elevated in neovascular age-related macular degeneration.

Management of giant liver hemangiomas: an update.

Giant haemangioma of the liver: diagnosis and treatment.

Staging laparoscopy in patients with hepatocellular carcinoma: is it useful?

Fibrin sealant for prevention of resection surface-related complications after liver resection: a randomized controlled trial.
