CURRICULUM VITAE

Janna Cousijn was born on May 13, 1983 in Nijmegen, The Netherlands. In 2002 she moved to Amsterdam to study Biomedical Science at the University of Amsterdam. After receiving her BSc degree in Biomedical Science in 2005 (cum laude) she continued with the interdisciplinary research master Cognitive Science at the University of Amsterdam. In 2007 she received her MSc degree in Cognitive Science (cum laude) and worked as a junior teacher in neuroimaging techniques at the Psychonomics Department of the University of Amsterdam. From 2008 to 2012 she carried out her PhD research at the Amsterdam Institute for Addiction Research at the Department of Psychiatry of the Academic Medical Center, in collaboration with the ADAPT-lab at the Department of Developmental Psychology of the University of Amsterdam. This thesis is the result of her work during that period. Janna currently continues to work at the AIAR and ADAPT-lab as a postdoctoral researcher, investigating the role of cognitive control and motivation in the development of addictive behaviors.
