Time flies... When I started I thought that I would have 4 (and more) long years in front of me. But now is amazing to realize how fast it went... and that is only due to all of you that have been there in one way or another and helped me to go through with it.

Firstly, I would like to thank Piter, my supervisor, for giving me the chance of being involved in such a gratifying project. Only a few investigators have the opportunity of experience the translation of their research into the clinic. I am one of the lucky ones. Thank you Piter.

Dear Ronald, as I told you before, thank you for keeping your “door” open to anyone and/or any question... It is a great pleasure to see your enthusiasm for science, it does help us to keep on going. Additionally thank you for your comments and suggestionns when reviewing this thesis.

I truly appreciated all insightful discussions with Jurgen, ranging from science to cuisine and maritime discoveries... Would it be a coincidence that the party of my thesis defence will be at De Schreierstoren? ;)

I would like to thank my thesis committee: Prof. Dr. U.H.W. Beuers, Prof. Dr. J. J. P. Kastelein, Prof. Dr. A. Nathwani, Prof. Dr. E. Sokal and Prof. Dr. H.J. Verkade for reviewing my thesis and participating in my defence.

My dear paranymphs, Suzanne and Lysbeth thank you, not only for standing next to me during the defence, but specially for all the help and all the hours, days and months shared during my PhD project.

Mona, thank you for your help and assistance with all the bureaucratic arrangements to prepare this thesis. Thank you Kam and Wil for keeping the lab in order... Dear Jacqueline, thank you for saving me so many times from the microscope frustrations.

I also would like to give special thanks to Gijs, that gave me the opportunity to engage in a project so appealing to me and made it possible that this is not a goodbye.
Dear Saša, thank you for always being there to help and support. Our conversations brought me much closer to my South European roots. Thank you.

Dear Vassilis, always a good friend always willing to help. Thank you.

Through all these years I shared the Tytgat Institute (former AMC Liver Center (ALC)) with many colleagues and friends. Andy and Simon, that demonstrated so well the meaning of hard work. Of course I must thank all the great times shared with my roommates: Eb, Job, Dineke, Luca, Lucas, Remco, Ruth and Vincent. Now finally I will let you work... Dear Dineke, I am very proud of you for all the challenges that you overcame. Thank you for giving me a roof during my time of need. Dear Satish, it was always nice to learn more and more about the Indian culture and thank you for your present (my first Rupees...). Dear Jing, you are such a special person. Dear Cindy always with such a special energy and strength. Thank you Rudi for all the HPLC analysis and LB... 😊 Dear Conny, the one that introduce me to the ALC, thank you. Dear Coen, thank you for all the good remarks and comments in any of the projects. Zé, Lea, Ronald, Shobit, Laurens and Shoerd it was always nice to visit your room and drink some coffee with you guys. Kind Sophie, good luck! Soon will be your turn. 😊

Of course I must also thank my friends in Utrecht, where I gave my first scientific steps... I always kept very good memories from all of you, Jan, Joke, Rudiger, Maaike, Yuri, Hugo, Fe, Angel, Danielle and many others that were much more than colleagues. Thank you especially to Hugo and Fe for your friendship.

Querida Beta, basta ligar e sei que vou sempre ouvir a tua voz do outro lado da linha. Obrigada Mina e Beta pela vossa amizade inestimável.

Os meus tempos pela Covilhã ficarão sempre gravados como os anos mais especiais da minha vida, tempos de estudante ou não... O querer ficar sempre estudante é devido a todos vocês: Obrigada Me, Maia, Pesqueira, Mitra, Vera Maria, Nabeiro, Ticha, Lili e Leninha vocês são únicos. Querida Xaninha, amiga do coração, Covilhã, Cinfães, Campo Maior, Amsterdão, Tübingen, Évora e até mesmo Nova York ou Singapura, sei que estaremos sempre por perto...

Querida Daniela, foi contigo que tudo começou...ainda me lembro de estar sentada na tua cozinha quando te perguntei: “Que achas de participarmos no programa Erasmus?”, acho que todos já sabem a resposta... Obrigada minha linda, esta
esperiência foi bem mais especial quando partilhada contigo. E foi o que desencadeou a minha estadia na Holanda...

Acima de tudo, gostava de agradecer à minha família, Pai, Mãe, Lidinha e Xana obrigada por estarem sempre por perto e me ajudarem sem qualquer restrições. O vosso amor e carinho é indispensável. Thank you also to my future brother-in-law, Tom, for always showing interest in my work. Gostava também de agradecer ao meu Avô por ter acreditado em mim. Consegui Avô!

Muito obrigada, thank you and dank je wel.

Paula
