Angiogenesis in congenital vascular malformations: a dynamic view on a static lesion

Jorna, L.B.

Citation for published version (APA):
Contents

Chapter 1
General introduction

Part I Vascular lesions and angiogenesis - an overview
Chapter 2
Benign vascular lesions of skin and soft tissue - classification.

Chapter 3
Angiogenesis in benign vascular lesions - basic aspects.

Part II Angiogenesis in vascular malformations
Chapter 4
Microvascular proliferation in congenital vascular malformations of skin and soft tissue.
*Journal of Clinical Pathology. 2007;60:798-803*

Chapter 5
Proliferation and maturation of microvessels in cutaneous arteriovenous malformations - expression patterns of angiogenic and cell cycle dependent factors.
*Journal of Cutaneous Pathology; in press February 2012*

Chapter 6
Anti-human Vascular Endothelial Growth Factor (VEGF) antibody selection for immunohistochemical staining of proliferating blood vessels.
*Journal of Histochemistry and Cytochemistry. 2010; 58:109–118*

Chapter 7
Microvascular proliferations in arteriovenous malformations relate to high flow characteristics, inflammation and previous therapeutic embolization of the lesion.
*Submitted*
Part III  Vascular malformations at specific topographic sites

Chapter 8
Hypertrophy in facial capillary malformations: clinical and pathological findings in 11 patients.

Accepted for publication in Annals of Plastic Surgery; December 2011

Chapter 9
Two cases of cardiac arteriovenous malformations complicated by a local angioproliferative process.

Pediatric Cardiology. 2010;31:868-71

Chapter 10
Congenital vascular malformations - cerebral lesions differ from extracranial lesions by their immune expression of the glucose transporter protein GLUT1.

Clinical Neuropathology; in press November 2011

Part IV  Nerves in vascular malformations

Chapter 11
Presence of a distinct neural component in congenital vascular malformations relates to the histological type and location of the lesion.

Human Pathology. 2009;40:1467-73

Chapter 12
Nerves in congenital vascular malformations- a painful association?

Part V  Discussion

Chapter 13
Summary and discussion

Chapter 14
