Thesis, University of Amsterdam, The Netherlands

This thesis was prepared at the Department of Clinical Epidemiology, Biostatistics and Bioinformatics at the Academic Medical Center, University of Amsterdam, Amsterdam, The Netherlands.

The publication was financially supported by The Dutch Cochrane Centre, Stichting tot Bevordering van de Klinische Epidemiologie and the Academical Medical Center.

ISBN: 978-90-9023139-6

No part of this thesis may be reproduced, stored or transmitted in any way and by no means, without permission of the author. A digital version of this thesis can be found at http://dare.uva.nl.

Cover design: Mariska Leeflang
Layout: Fay Koen Tjoa
Printed by: Grafisch Bedrijf Ponsen & Looijen b.v.

About the cover: the cover is inspired by Celtic artwork and reflects the process of a systematic review: parts become a whole. The anthropomorphic (human-like) and zoomorphic (animal-like) creatures represent the background of the author. The stethoscopes and the corners refer specifically to diagnostic test accuracy reviews. The snakes eating their own tail stand in Celtic mythology for longevity and the ever-lasting life cycle.
Systematic reviews of diagnostic test accuracy
