Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

CONTENTS

Chapter 1	Introduction Ion channels involved in genetic cardiac arrhythmias. To be published in part as bookchapter in: "Ion channels biophysics and diseases" (published by research signpost)	9
Chapter 2	Voltage-gated sodium channels: action players with many faces. Annals of medicine. 2006;38(7):472-82.	37
Chapter 3	A mutation in the human cardiac sodium channel (E161K) contributes to sick sinus syndrome, conduction disease and Brugada syndrome in two families. Journal of molecular and cellular cardiology. 2005;38:969-81.	57
Chapter 4	A common sodium channel promoter haplotype in Asian subjects underlies variability in cardiac conduction. Circulation. 2006;113(3):338-44.	79
Chapter 5	Polymorphisms in the cardiac sodium channel promoter displaying variant <i>in vitro</i> expression activity. European journal of human genetics. 2008;16(3):350-7.	95
Chapter 6	Sodium channel β 1-subunit mutations associated with Brugada syndrome and cardiac conduction disease. The journal of clinical investigation. <i>In press</i>	109
Chapter 7	Exclusion of multiple candidate genes and large genomic rearrangements in <i>SCN5A</i> in a Dutch Brugada syndrome cohort. Heart rhythm. 2007;4(6):752-5.	131
Chapter 8	Long QT Syndrome caused by a large duplication in the <i>KCNH2</i> (HERG) gene undetectable by the PCR-based exon-scanning methodologies employed to date. Heart rhythm. 2006;3(1):52-5.	141
	The intrinsic complexity and future perspectives of genetic research	149
	Summary / Samenvatting	157
	Dankwoord	165
	List of publications	169
