<th>Part I</th>
<th>Prognostic factors in primary percutaneous coronary intervention</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chapter 1</td>
<td>Evaluation of the Effect of a Concurrent Chronic Total Occlusion on Mortality and Left Ventricular Function After Primary Percutaneous Coronary Intervention.</td>
</tr>
<tr>
<td></td>
<td><em>JACC Cardiovascular Interventions</em> 2009;2:1128-1134</td>
</tr>
<tr>
<td>Chapter 2</td>
<td>Impact of multivessel disease with or without a concurrent chronic total occlusion on one-year mortality in patients treated with primary percutaneous coronary intervention for cardiogenic shock.</td>
</tr>
<tr>
<td></td>
<td><em>American Journal of Cardiology</em> 2010;105:955-959</td>
</tr>
<tr>
<td>Chapter 3</td>
<td>Impact of a Chronic Total Occlusion in a Non-Infarct Related Artery on Long-Term Mortality in Patients With Diabetes Mellitus After ST Elevation Myocardial Infarction.</td>
</tr>
<tr>
<td></td>
<td><em>Heart</em> 2010;96:1968-1972</td>
</tr>
<tr>
<td>Chapter 4</td>
<td>Prognostic Impact of a Chronic Total Occlusion in a Non-Infarct Related Artery in Patients with ST-Elevation Myocardial Infarction: Three-Year Results From the HORIZONS-AMI Trial</td>
</tr>
<tr>
<td></td>
<td><em>In Revision: European Heart Journal</em></td>
</tr>
<tr>
<td>Chapter 5</td>
<td>Rationale and Design of EXPLORE: a Randomized, Prospective, Multicenter Trial Investigating the Impact of Recanalization of a Chronic Total Occlusion on Left Ventricular Function in Patients after Primary Percutaneous Coronary Intervention for Acute ST-Elevation Myocardial Infarction.</td>
</tr>
<tr>
<td></td>
<td><em>Trials</em> 2010;11:89</td>
</tr>
<tr>
<td>Chapter 6</td>
<td>Relationship Between Biomarkers and Subsequent Clinical and Angiographic Restenosis after Paclitaxel-Eluting Stents for Treatment of ST-Elevation Myocardial Infarction: A HORIZONS-AMI Substudy Submitted</td>
</tr>
<tr>
<td>Chapter 7</td>
<td>Long-Term Impact of Chronic Kidney Disease in Patients with STEMI Treated with Primary Percutaneous Coronary Intervention: The HORIZONS-AMI Trial.</td>
</tr>
<tr>
<td></td>
<td><em>In Print: JACC Cardiovascular Interventions</em></td>
</tr>
<tr>
<td>Chapter 8</td>
<td>Predictive value of plasma glucose level on admission for short and long term mortality in patients with ST elevation myocardial infarction treated with primary percutaneous coronary intervention.</td>
</tr>
<tr>
<td></td>
<td><em>In Print: American Journal of Cardiology</em></td>
</tr>
<tr>
<td>Chapter 9</td>
<td>Primary Percutaneous Coronary Intervention for ST Elevation Myocardial Infarction in Octogenarians: Trends and Outcomes From an Eleven-Year Single Center Experience.</td>
</tr>
<tr>
<td></td>
<td><em>Heart</em> 2010;96:854-859</td>
</tr>
<tr>
<td>Chapter 10</td>
<td>Impact of Major Bleeding on Long term Care and Outcomes of Patients after Primary Angioplasty: Three Year Results of the Harmonizing Outcomes with Revascularization and Stents in Acute Myocardial Infarction (HORIZONS-AMI) Trial.</td>
</tr>
<tr>
<td></td>
<td><em>In Print: Journal of the American College of Cardiology</em></td>
</tr>

</table>
Chapter 11  The Doppler flow-wire in acute myocardial infarction.  
_Heart 2010;96:631-635_  143

Chapter 12  Plaque Composition by Virtual Histology Intravascular Ultrasound and Distal Embolization after Percutaneous Coronary Intervention: A Systematic Review and Meta-analysis.  
_Submitted_  153

Chapter 13  Clinical Outcomes Following Stent Thrombosis Occurring In-Hospital versus Out-of-Hospital: results from the HORIZONS-AMI Trial.  
_Submitted_  163

Chapter 14  Development and validation of a stent thrombosis risk score in patients with acute coronary syndromes  
_Submitted_  179

Part II  Prognostic factors in elective percutaneous coronary intervention

Chapter 15  Clinical Studies with Sirolimus, Zotarolimus, Everolimus, and Biolimus A9 Drug-Eluting Stent Systems.  

Chapter 16  Current status of the XIENCEV™ everolimus-eluting coronary stent system.  
_Expert Review of Cardiovascular Therapy 2010;8:1363-1374_  213

Chapter 17  Two-Year Safety and Effectiveness of Sirolimus-Eluting Stents (From a Prospective Registry)  
_American Journal of Cardiology, 2011;107:528-34_  229

Chapter 18  Impact of Intravascular Ultrasound Imaging on Early and Late Clinical Outcome Following Percutaneous Coronary Intervention with Drug-Eluting Stents.  
_In Print: JACC Cardiovascular Interventions_  241

Chapter 19  Two Year Clinical, Angiographic and Intravascular Ultrasound Follow-Up of the XIENCEV Everolimus-Eluting Stent in the Treatment of Patients With de novo Native Coronary Artery Lesions: The SPIRIT II Trial  
_Circulation Cardiovascular Interventions 2009;2:339-347_  255

Chapter 20  Would SYNTAX have been a positive trial if XIENCEV was used instead of TAXUS? A meta-analysis of a first vs. a next generation drug eluting stent  
_Netherlands Heart Journal 2010;18:451-453_  269

Chapter 21  Impact of Lesion Length and Vessel Size on Clinical Outcomes after Percutaneous Coronary Intervention with Everolimus-Eluting vs. Paclitaxel-Eluting Stents: Pooled Analysis from the SPIRIT and COMPARE Randomized Trials  
_In print: JACC interventions_  275

Chapter 22  One-year Clinical Outcome After Treatment of Bare-Metal Stent In-Stent Restenosis with the Paclitaxel-Eluting Stent in an Unselected Cohort  
_International Journal of Cardiology 2010;145:608-9_  287

Chapter 23  In-Stent Restenosis in the Drug-Eluting Stent Era  
_Journal of the American College of Cardiology, 2010;56:1897-907_  293
Chapter 24  Long-Term Outcomes of Percutaneous Coronary Intervention for Chronic Total Occlusions  
_In Print: JACC Cardiovascular Interventions_  
311

Chapter 25  Long-Term Clinical Outcomes of Percutaneous Coronary Intervention for Chronic Total Occlusions in Patients with versus without Diabetes Mellitus.  
_In Print: American Journal of Cardiology_  
325

Chapter 26  Impact of Target Vessel on Long-Term Survival after Percutaneous Coronary Intervention for Chronic Total Occlusions.  
_Submitted_  
339

Chapter 27  **Summary**  
349

Chapter 28  **Nederlandse samenvatting**
