Identifying and evaluating patterns of prescription opioid use and associated risks in Ontario, Canada

Tara Gomes

These studies were supported by a grant from the Ontario Ministry of Health and Long-Term Care (MOHLTC) in Canada and by the Institute for Clinical Evaluative Sciences (ICES), a non-profit research institute sponsored by the Ontario MOHLTC. The opinions, results and conclusions reported in this paper are those of the authors and are independent from the funding sources. No endorsement by ICES or the Ontario MOHLTC is intended or should be inferred.

We thank Brogan Inc., Ottawa for use of their Drug Product and Therapeutic Class Database. Parts of this material are based on data and information compiled and provided by the Canadian Institute for Health Information (CIHI). However, the analyses, conclusions, opinions and statements expressed herein are those of the author, and not necessarily those of CIHI.

Conflicts of Interest: Tara Gomes reports no conflicts of interest related to this work.
