You will be contacted as soon as possible.

Barbara Stam was born on April 4<sup>th</sup>, 1983, in Dinteloord. At age 6 she moved to Roosendaal, where she finished her secondary education in 2001 at the Gertrudis College. That same year she started her studies at the Free University in Amsterdam, where she did a minor internship at the department of Nuclear Medicine & PET research, and a major internship at the department of Physics and Medical Technology. After obtaining her masters degree in Medical Natural Sciences in 2006 she started in December as a PhD at the Lasercenter of the Academic Medical Center, which later merged into the Biomedical Engineering and Physics department. This resulted in this dissertation entitled 'Three dimensional modeling of bruise evolution for improved age determination'. In October 2011, she started as a post doc at the Radiotherapy department of the NKI-AVL.
