# Contents

1 Introduction  

2 Information and Strategic Voting  
  2.1 Introduction  
  2.2 The Model  
    2.2.1 Equilibrium Analysis  
    2.2.2 Behavioral Predictions  
  2.3 Experimental Design  
  2.4 Results  
    2.4.1 General Overview  
    2.4.2 Strategic Voting  
    2.4.3 Voter Types  
    2.4.4 Summarizing the Results  
  2.5 Concluding remarks  

Appendix 2.A Pivotal Probabilities and Asymptotics  
Appendix 2.B Experimental Instructions  
Appendix 2.C Realizations of the Random Draws  
Appendix 2.D MLC for each unique situation  
Appendix 2.E Limiting MLC for each unique situation  

3 Strategic Voting and Heterogeneous Preferences  
  3.1 Introduction  
  3.2 The Model  
    3.2.1 Theoretical Analysis  
    3.2.2 Behavioral Predictions  
  3.3 Experimental Design  
  3.4 Results  
    3.4.1 Election Winner  
    3.4.2 Aggregate Behavior  
    3.4.3 Strategic voting by Rank-Type  
  3.5 Concluding remarks
Appendix 3.A  Experimental Instructions ........................................ 64

4 Information and Economic Voting ........................................... 67
  4.1 Introduction ........................................................................ 67
  4.2 Literature .......................................................................... 69
  4.3 Economic Voting and Information Search ......................... 72
  4.4 Experimental Design ...................................................... 75
    4.4.1 Treatments ............................................................... 78
  4.5 Predictions ...................................................................... 78
    4.5.1 Case 1: Pure self interest .......................................... 79
    4.5.2 Case 2: Other-regarding preferences ......................... 79
  4.6 Results ........................................................................... 80
    4.6.1 Politicians’ Behavior ................................................ 80
    4.6.2 Voters’ Behavior ..................................................... 83
    4.6.3 Summary of Results ................................................ 91
  4.7 Discussion ...................................................................... 91

Appendix 4.A  Experimental Instructions ................................. 93
Appendix 4.B  Experimental Screen Shots ............................... 99

5 Preference for Efficiency or Confusion? ............................... 101
  5.1 Introduction .................................................................... 101
  5.2 The Experiment ............................................................. 103
  5.3 Theoretical Predictions and Estimation Procedure .......... 104
  5.4 Results ........................................................................... 107
  5.5 Conclusions ................................................................... 111

Appendix 5.A  Maximum Likelihood of $\alpha$ for varying $\mu$-values ........................................................................... 113

Bibliography ............................................................................ 123

Samenvatting (summary in Dutch) ........................................... 125
