CONTENTS

PREFACE
9 Preface and outline of the thesis

PART I

BIOCHEMICAL MARKERS IN CARDIOGENIC SHOCK

17 CHAPTER 1
Prognostic value of admission hemoglobin levels in ST-segment elevation myocardial infarction patients presenting with cardiogenic shock.
Am J of Cardiol. 2007; 99(9):1201-02

25 CHAPTER 2
In patients with ST-segment elevation myocardial infarction with cardiogenic shock treated with percutaneous coronary intervention, admission glucose level is a strong independent predictor for 1-year mortality in patients without a prior diagnosis of diabetes.
Am Heart J. 2007;154(6):1184-90

43 CHAPTER 3
Creatinine clearance is independently associated with one year mortality in a primary PCI cohort with cardiogenic shock
Acute Card Care. 2009;11(2):107-12

59 CHAPTER 4
Plasma glucose and not hemoglobin or renal function predicts mortality in patients with STEMI complicated with cardiogenic shock
PART II

ANGIOGRAPHIC PARAMETERS IN CARDIOGENIC SHOCK

77 CHAPTER 5
Cardiogenic shock: role of revascularization
Minerva Cardioangiologica. 2011;59(1):75-87

101 CHAPTER 6
A systemic review and meta-analysis on primary PCI for unprotected left main disease in
ST-segment deviation acute myocardial infarction patients
In press after revision JACC interventions

121 CHAPTER 7
Clinical outcomes after percutaneous or surgical revascularization of unprotected left main
coronary artery related myocardial infarction: a single-center experience
Submitted

145 CHAPTER 8
The Impact of Multivessel Disease With and Without a Coexisting Chronic Total
Occlusion on Short and Long Term Mortality in ST-elevation Myocardial Infarction
Patients With and Without Cardiogenic Shock.
Accepted Eur J Heart Fail.
PART III

HEMODYNAMIC PARAMETERS IN CARDIOGENIC SHOCK

167 CHAPTER 9
Mitral regurgitation is an independent predictor of 1-year mortality in ST-elevation myocardial infarction patients presenting in cardiogenic shock on admission.

Acute Cardiac Care. 2010; 12 (2): 51–57

183 CHAPTER 10
Right ventricular dysfunction is an independent predictor for mortality in ST-elevation myocardial infarction patients presenting with cardiogenic shock on admission.

Eur J Heart Fail. 2010;12(3):276-82

199 CHAPTER 11
A systematic review and meta-analysis of intra-aortic balloon pump therapy in ST-elevation myocardial infarction: should we change the guidelines?

Eur Heart J. 2009;30(4):459-68

223 CHAPTER 12
Summary, future perspective and concluding remarks
