The hormonal influence on the haemostatic system and the risk of thrombosis

Stuijver, D.J.F.

Citation for published version (APA):
CONTENT

Chapter 1  Introduction and general outline of the thesis  9

PART I  CORTISOL

Chapter 2  Incidence of venous thromboembolism in patients with cushing’s syndrome: a multicenter cohort Study  19
*J Clin Endocrinol Metab 2011;96:3525-3532*

Chapter 3  Use of oral glucocorticoids and risk of pulmonary embolism: a population-based case-control Study  39
*Chest; in press*

PART II  THYROID HORMONE

Chapter 4  The effect of hyperthyroidism on procoagulant, anticoagulant and fibrinolytic factors: a systematic review and meta-analysis  55
*Thromb Haemost; in press*

Chapter 5  The effects of an extremely high dose of levothyroxine on coagulation and fibrinolysis  107
*J Thromb Haemost 2010;8:1427-1428*

Chapter 6  Thrombin-activatable fibrinolysis inhibitor in hyperthyroidism and hypothyroidism  115
*Submitted for publication*

Chapter 7  A. The relationship between thyroid dysfunction and clot structure:  131
   A mechanism for increased thrombosis risk in hyperthyroid individuals?  
   *J Clin Endocrinol Metab 2012;97:1463-1473*
   B. Fibrin clot structure and fibrinolysis in hypothyroid individuals:  151
   the effects of normalising thyroid hormone levels  
   *J Thromb Haemost 2012;10:1708-1710*

Chapter 8  The prevalence of acquired Von Willebrand’s syndrome in patients with overt hypothyroidism  159
*Submitted for publication*
Chapter 9  The effect of subclinical hypothyroidism on vitamin K antagonist treatment
*Thrombosis Research* 2012;129:520-522

Chapter 10  The incidence of venous thromboembolism in patients with overt hyperthyroidism: a retrospective multicenter cohort study
*Thromb Haemost* 2012;107:417-422

Chapter 11  Risk of recurrent venous thrombosis: the influence of thyroid hormone

Chapter 12  Screening for thyroid dysfunction in dyslipidaemia patients
*Translated from Ned Tijdsch Geneeskd* 2012;156:A4301

Chapter 13  The effect of thyroid hormone analogue on coagulation and fibrinolysis: a randomized controlled trial

**PART III  PROLACTIN**

Chapter 14  Levels of prolactin in relation to coagulation factors and risk of venous thrombosis: results of a large population-based case-control study (MEGA-study)
*Thromb Haemost* 2012;108:499-507

Chapter 15  Increased signs of atherothrombosis in prolactinoma patients
*Pituitary* 2011;Oct 13

Chapter 16  Under-reporting of Venous and Arterial Thrombotic Events in Randomized Clinical Trials: A Concise Review and Meta-analysis
*Submitted for publication*
