# TABLE OF CONTENTS

Acknowledgements .................................................. 11
English Summary ..................................................... 15
Nederlandse Samenvatting ........................................... 19
中文摘要 ............................................................. 23

## CHAPTER 1
**Introduction** .................................................. 27
1.1 Online social network sites .................................. 28
1.2 Social networks and entrepreneurship ...................... 30
1.3 The value of social networks ................................ 32
1.4 Dissertation overview ........................................ 33
1.5 Contribution .................................................... 34

## CHAPTER 2
**Methodology for Extracting Entrepreneurs' Online Social Network Data** ............. 37
2.1 Introduction .................................................... 38
2.2 Network of Networks (NoN) .................................. 39
2.3 Network data .................................................... 40
2.4 Data from online social network sites ....................... 41
2.5 Methodology for extracting NoN ............................. 43
2.6 Simulation of entrepreneurial processes ..................... 44
2.7 Discussions and conclusions ................................ 48

## CHAPTER 3
**The Diversity of Entrepreneurs' Online Social Networks** ............................. 51
3.1 Introduction .................................................... 52
3.2 Network measurement ........................................ 53
   3.2.1 Network size ............................................. 53
   3.2.2 Network diversity ....................................... 53
3.3 The LinkedIn network for the gaming industry .......... 54
3.4 Multiple networks and entrepreneurial survival ........... 56
   3.4.1 Hypotheses ............................................... 56
   3.4.2 Entrepreneurial survival ................................ 60
3.5 Results ........................................................ 62
3.6 Discussions and conclusions ................................ 64
