Network of networks: Uncovering the secrets of entrepreneurs' networks

Song, Y.

Citation for published version (APA):
# TABLE OF CONTENTS

Acknowledgements .................................................. 11
English Summary .................................................. 15
Nederlandse Samenvatting ........................................... 19
中文摘要 ......................................................... 23

CHAPTER 1
Introduction ....................................................... 27
1.1 Online social network sites ..................................... 28
1.2 Social networks and entrepreneurship ......................... 30
1.3 The value of social networks .................................... 32
1.4 Dissertation overview .......................................... 33
1.5 Contribution .................................................. 34

CHAPTER 2
Methodology for Extracting Entrepreneurs' Online Social Network Data ...................................................... 37
2.1 Introduction .................................................. 38
2.2 Network of Networks (NoN) ...................................... 39
2.3 Network data ................................................ 40
2.4 Data from online social network sites ......................... 41
2.5 Methodology for extracting NoN ............................... 43
2.6 Simulation of entrepreneurial processes ....................... 44
2.7 Discussions and conclusions .................................. 48

CHAPTER 3
The Diversity of Entrepreneurs' Online Social Networks ................................................................. 51
3.1 Introduction .................................................. 52
3.2 Network measurement .......................................... 53
3.2.1 Network size ........................................... 53
3.2.2 Network diversity ....................................... 53
3.3 The LinkedIn network for the gaming industry .............. 54
3.4 Multiple networks and entrepreneurial survival ............ 56
3.4.1 Hypotheses ............................................ 56
3.4.2 Entrepreneurial survival ................................ 60
3.5 Results ..................................................... 62
3.6 Discussions and conclusions ................................ 64
# CHAPTER 4
**Entrepreneurs’ Online Social Networks: Networks of Networks**

4.1 Introduction 70
4.2 Theoretical framework 71
   4.2.1 Network structures 71
   4.2.2 Multiple networks 73
   4.2.3 The role of weak ties 74
4.3 Data 75
   4.3.1 Data description 75
   4.3.2 Data matching 76
   4.3.3 Missing data 80
4.4 Data analysis 81
   4.4.1 LinkedIn degree distribution 81
   4.4.2 Facebook degree distribution 81
   4.4.3 Twitter degree distribution 82
   4.4.4 The NoN 83
4.5 The communities in the NoNs 84
4.6 Discussions and conclusions 88

# CHAPTER 5
**Simulation of the Entrepreneurial Process Based on the Online Social Network Structure**

5.1 Introduction 92
5.2 Data description 94
5.3 The network simulation model 97
   5.3.1 Simulation parameters 98
   5.3.2 Simulation procedure 99
   5.3.3 Simulation algorithm 101
5.4 Simulation result 103
   5.4.1 Measurements 103
   5.4.2 The magic of simulations 105
   5.4.3 Results 110
5.5 Conclusions 120

# CHAPTER 6
**Implications and Discussion**

6.1 Summary of methodology 124
6.2 Summary of network diversity 124
6.3 Data secrets 125
6.4 The simulation of the entrepreneurial process in a given network 125
6.5 An additional note on methodology – future perspectives 126
6.6 Limitations and conclusions 128

Bibliography 131
Appendix 143
About the author 147

LIST OF TABLES
Table 1 Motives for using online social networks 29
Table 2 Overview of dissertation 35
Table 3 Summary of data for each online social network 43
Table 4 Survey for data collection 45
Table 5 Raw data 47
Table 6 Overview of hypotheses 59
Table 7 Network data description 60
Table 8 ANOVA 62
Table 9 Regression coefficients with survival as the dependent variable 62
Table 10 Merging process 80
Table 11 Purposes of social networks per entrepreneur 83
Table 12 Connected components of the network 96
Table 13 Structural properties of the biggest network component 97
Table 14 Survival rate by degree and wealth 109
Table 15 Regression table 118
Table 16 Survival probability more than 150 based on different start-up times 119

LIST OF FIGURES
Figure 1 Survey flow chart 46
Figure 2 Gaming industry entrepreneurs’ online social networks by industry 55
Figure 3 Colour-coding and percentage involvement for each industry 56
Figure 4 Entrepreneurs’ LinkedIn network structure by degree of centrality 64
Figure 5 CCDF of a random network on different scales 72
Figure 6 CCDF of a scale-free network on different scales 73
Figure 7 Venn diagram of entrepreneurs’ profiles before merging process 76
Figure 8 Venn diagram of non-entrepreneurs’ profiles before merging process 77
Figure 9 Matching names across online social networks 77
