You will be contacted as soon as possible.
Contents

1 Introduction
   1.1 Outline of the Thesis .............................................. 5

2 Individual Expectations, Limited Rationality
   and Aggregate Outcomes ............................................. 9
   2.1 Introduction ......................................................... 9
   2.2 Experimental Design .............................................. 14
      2.2.1 Treatments ..................................................... 14
      2.2.2 Expectation Feedback ....................................... 15
      2.2.3 Individual Earnings ......................................... 16
   2.3 Experimental Results ............................................. 16
      2.3.1 Aggregate Price Behavior .................................. 16
      2.3.2 Individual Prediction Rules ................................. 21
      2.3.3 Benchmark Homogeneous Expectation Models ............... 24
   2.4 Heuristic Switching Models (HSM) ................................ 26
   2.5 Conclusion and Discussion ...................................... 32
   2.A Appendix ........................................................... 34
      2.A.1 Experimental instructions (for negative feedback) ....... 34
      2.A.2 Experimental instructions (for positive feedback) ....... 36
2.A.3 Control Questions

2.A.4 Results of Estimation of Individual Prediction Rules

3 Learning, Forecasting and Optimizing: An Experimental Study

3.1 Introduction

3.2 Related Literature

3.3 Experimental Design

3.3.1 Treatments

3.3.2 Number of Observations

3.3.3 Theoretical Model

3.3.4 Computer Interface

3.3.5 Payoffs

3.4 Experimental Results

3.4.1 Aggregate Market Price

3.4.2 Individual–Level Decisions

3.4.3 Variance of the Market Price and M.S.D. from REE

3.4.4 Individual Forecasts

3.4.5 Individual Supply Decisions

3.5 Conclusion

3.A Appendix

3.A.1 Experimental Instructions

3.B Testing Convergence using Linear Estimation

3.C Identified Forecasting Rules

3.D Estimated Supply Strategies

3.E Payoff Tables

3.E.1 Payoff Table for Forecasters

3.E.2 Payoff Table for Production Managers
4 Switching Behavior in the Lab: Estimation of the Intensity of Choice 95

4.1 Introduction ......................................................... 95
4.2 Experimental Design ................................................. 98
  4.2.1 Subjects' Task ............................................... 99
  4.2.2 Treatments ................................................... 99
4.3 Experimental Results ............................................... 105
  4.3.1 Fraction of Choice ............................................ 105
  4.3.2 Frequency of Switches ....................................... 108
  4.3.3 Learning Effect .............................................. 109
  4.3.4 Estimation of $\beta$ .......................................... 112
  4.3.5 Binary Choice ............................................... 113
  4.3.6 Multiple choice ............................................ 115
4.4 Conclusion ......................................................... 119
4.A Appendix ........................................................ 120
  4.A.1 Experimental Instructions ................................. 120

5 A Simple Experiment on Fee Structure and Mutual Fund Choice 123

5.1 Introduction ......................................................... 123
5.2 Experimental Design ............................................... 127
  5.2.1 Summary Information ........................................ 127
  5.2.2 Task Design .................................................. 127
  5.2.3 The Mutual Funds: Returns ............................... 128
  5.2.4 Treatments Based on the Fee Structure .................. 130
5.3 Experimental Result ............................................... 133
  5.3.1 Summary Statistics ......................................... 133
  5.3.2 Heterogeneity in Individual Choice ..................... 135
  5.3.3 Frequency of Switching ....................................... 137
5.3.4 Earnings ......................................................... 139
5.3.5 Influence of Past Performance ............................. 141
5.4 Conclusion ......................................................... 145
5.A Appendix ......................................................... 148
  5.A.1 An Example of Translated Experimental Instructions 148
  5.A.2 Control Questions with Answers ......................... 151

6 Summary ......................................................... 153

Bibliography ....................................................... 157

Samenvatting ..................................................... 167
