# Table of Contents

Chapter 1 .................................................................................................................................. 9

General introduction .................................................................................................................. 9

1.1. Sleep in adolescents ........................................................................................................... 10

1.2. The assessment of chronic sleep reduction ...................................................................... 11

1.3. Individual differences in vulnerability to sleep loss ......................................................... 12

1.4. Sleep and stress in adolescents ......................................................................................... 12

1.5. Sleep extension in adolescents ......................................................................................... 13

1.6. Aims of this thesis ............................................................................................................ 15

1.7. Outline of this thesis ......................................................................................................... 15

1.8. References ....................................................................................................................... 17

Chapter 2 .................................................................................................................................. 23

The influence of sleep quality, sleep duration and sleepiness on school performance in children and adolescents: A meta-analytic review .................................................. 23

2.1. Introduction ....................................................................................................................... 25

2.2. Study aim .......................................................................................................................... 26

2.3. Method ................................................................................................................................ 27

2.4. Results ................................................................................................................................ 31

2.5. Discussion .......................................................................................................................... 39

2.6. References ....................................................................................................................... 44

Chapter 3 .................................................................................................................................. 51

The Chronic Sleep Reduction Questionnaire (CSRQ): a cross-cultural comparison and validation in Dutch and Australian adolescents .................................................. 51

3.1. Introduction ....................................................................................................................... 53

3.2. Method ................................................................................................................................ 54

3.3. Results ................................................................................................................................ 59

3.4. Discussion .......................................................................................................................... 64

3.5. References ....................................................................................................................... 70
Chapter 4
Measuring sleep deficit through self-report: Development and validation of the Chronic Sleep Reduction Questionnaire-Short Form (CSRQ-SF)
4.1. Introduction
4.2. Method
4.3. Results
4.4. Discussion
4.5 References

Chapter 5
Why sleep matters: Individual differences in sleep need and vulnerability to sleep loss
5.1. Introduction
5.2. Method
5.3. Results
5.4. Discussion
5.5 References

Chapter 6
Adolescents’ sleep in low-stress and high-stress (exam) times: A prospective quasi-experiment
6.1. Introduction
6.2. Method
6.3. Results
6.4. Discussion
6.5 References

Chapter 7
Gradual sleep extension improves sleep and depressive symptoms in adolescents with chronic sleep reduction
7.1. Introduction
7.2. Method
7.3. Results
Chapter 8

The effects of gradual sleep extension on cognitive performance in adolescents with chronic sleep reduction: An experimental study

8.1. Introduction

8.2. Method

8.3. Results

8.4. Discussion

8.5. References

Chapter 9

General Discussion

9.1. The contribution of this thesis

9.2. Studying adolescents’ sleep and its effects on daytime functioning

9.3. Assessment of chronic sleep reduction in adolescents

9.4. Individual differences in vulnerability to sleep loss

9.5. Sleep and stress in adolescents

9.6. Sleep extension in adolescents with chronic sleep reduction

9.7. General remarks

9.8. Clinical relevance and implications

9.9. Conclusions

9.10. References

Summary / Samenvatting
