Shelley Maria Cornelia van der Veek
A Psychosocial Perspective on Pediatric Functional Abdominal Pain: Risk Factors and Treatment
PhD thesis, Academic Medical Center, University of Amsterdam

The research described in this thesis was performed at the Department of Child and Adolescent Psychiatry of the Academic Medical Center, Amsterdam, and at De Bascule, academic center for child- and adolescent psychiatry. The contribution of the department of pediatrics and the department of pediatric gastroenterology of the Emma Children's Hospital AMC is gratefully acknowledged.

This thesis was financially supported by the Dutch Digestive Foundation (Maag Lever Darm Stichting), grant number SWO 05-09. Financial support for printing of this thesis was kindly provided by De Bascule, academic center for child- and adolescent psychiatry, the Dutch Digestive Foundation, and the Nederlandse Vereniging voor Gastroenterologie.
