## **APPENDIX**

## Acknowledgments

Firstly, I would like to thank my promoters **Prof. Constance Schultsz**, **Prof. Jaap Wagenaar** who have put a lot of effort into supervising me and patiently reviewed my thesis. Dear Constance and Jaap, thank you for accepting me as your PhD student. I'm particularly fascinated by your profound knowledge, intellectual scientific intuition as well as your connections with other scientists worldwide. Secondly, I am enormously grateful to my co-promoter, **Dr. Ngo Thi Hoa** who gave me the opportunity to conduct my PhD at the Oxford University Clinical Research Unit (OUCRU) in Vietnam. Dear Hoa, thank you for your motivation and guidance during my PhD journey. I am very thankful for having you as my mentor. You have provided me endless scientific support and precious daily supervision. Thank you for taking care of my PhD project and offering me your warm help that has secured me and motivated me to move on with my PhD. I also would like to thank **Prof. Menno de Jong** for reviewing this thesis as well as for his support and advice in my PhD project.

Many thanks to **Dr. Juan Carrique-Mas**, who has patiently coached me with the epidemiological data analyses. Dear Juan, thank you for your patience, motivation and most importantly friendship. I have learnt from you not only scientific knowledge but also dealing with difficulties and having confidence in science.

I also would like to thank **Prof. Anita Hardon** for her technical supports and useful advices in preparing the questionnaires that used in the study.

I very much appreciated the help of **Mr. James Campbell**, **Mr. Nguyen Van Minh**, **Mrs. Ha Thanh Tuyen**, **Ms. Nguyen Thi Nhung**, **Ms. Hoang Ngoc Nhung**, **Mrs. Tran Thi Bich Chieu** and **Ms. Huynh Ngan Ha** at OUCRU, Vietnam. My PhD could not have been completed without a lot of technical support from all of you.

I would like to say thank you to **Dr. Thai Quoc Hieu**, **Dr. Ho Huynh Mai** at the Sub-Department of Animal Health in Tien Giang as well as **Dr. Nguyen Thi Nhu Mai** and **Dr. Nguyen Duc Duy** at the Preventive Medicine Center in Tien Giang for providing essential and technical support during the sample collection of my PhD project.

## APPENDIX

I am extremely grateful to get intensive support from **Dr. Arie van der Ende** and my colleagues at the Academic Medical Center: **Laura, Payal, Niels, Jarne, Willemine, Kim, Leonie, Xiaolin,** and **Martijn**. I also thank colleagues, friends and students whose names I did not mention but have helped me in different ways. It was great fun and pleasure to work, lunch and coffee together with you all. Thank you for providing me many informative and practical supports for my living in the Netherlands. Thank you for listening to my complaints, sharing jokes and helping me with my Dutch questions. Every time I recall, I am delighted and grateful for the friendship I made with you all. I will never forget these beautiful and precious memories.

I would like to give my cordial thanks to **Friso, Julien** and **Carmen** at The Amsterdam Institute for Global Health and Development. Thank you for your substantial support and warm help before and during my stay in Amsterdam. My travel and my stay in Amsterdam will not be easier without you.

I also would like to thank my colleagues at the Veterinary Department, Can Tho University, especially **Dr. Luu Huu Manh** and **Dr. Nguyen Huu Hung** who supported and encouraged me greatly throughout my PhD. Many thanks to **Mrs. Bui Thi Le Minh, Ms. Huynh Ngoc Trang, Ms. Nguyen Ho Bao Tran** and **Mrs. Nguyen Thu Tam** for the support and help during my study.

Life will not be colorful without my lovely Vietnamese friends in Amsterdam: **Duy, Cong Nguyen, Triet, Truc Anh, Ngoc Anh, Nguyen, Chi, Thanh, Chung, Cuong, Hien, Thao, Uyen...** Thank you for sharing Vietnamese foods and cheerful game time with me and bringing me the joyful time after research.

The biggest thank you goes to my family: **my Dad, my Mum, my brother, my sister-in-law, my niece** and **nephew**. Con cảm ơn Ba Mẹ vì đã sinh ra con, thương yêu con, sẵn sàng hi sinh tất cả để con có được cơ hội học tập tốt nhất. Ba Mẹ luôn ở bên con trong những lúc khó khăn nhất. Dù Ba đã đi xa và không được chứng kiến ngày con thật sự trưởng thành; nhưng con biết ở nơi nào đó, Ba vẫn dõi theo từng bước đi của con. Con yêu Ba Mẹ nhiều.

Nguyen Vinh Trung

PORTFOLIO

Name PhD student: Nguyen Vinh Trung	
PhD period: 2011-2017	
Name PhD supervisors: Constance Schultsz, Jaap Wagenaar, Ngo Thi Hoa	
<b>1. PhD training</b>	
	<b>Year</b>
<b>General courses</b>	
- Systematic Reviews (Graduate School, AMC, UvA)	2012
- Basic Safety Laboratory (Graduate School, AMC, UvA)	2013
- Oral presentation in English (Graduate School, AMC, UvA)	2013
- Reference Manager (Graduate School, AMC, UvA)	2013
- Computing in R (Graduate School, AMC, UvA)	2013
- Scientific writing in English for publication (Graduate School, AMC, UvA)	2014
<b>Specific courses</b>	
- Intensive course in epidemiology and medical statistics (the London School of Hygiene and Tropical Medicine, London, UK)	2012
- One Health course (Erasmus University Medical Center, Rotterdam, the Netherlands)	2012
- DNA technology (Graduate School, AMC, UvA)	2013
- Bioinformatics (Graduate School, AMC, UvA)	2013
<b>Seminars, workshops and master classes</b>	
- Author and Reviewer workshop	2013
- Symposium Epidemiology of ESBLs in animals, humans and healthcare (UMC Utrecht)	2013
<b>Presentations</b>	
- International workshop on the use of antimicrobials in livestock production and antimicrobial resistance in the Asia-Pacific region; Negombo, Sri Lanka – oral presentation	2012
- 23 <sup>rd</sup> European Congress of Clinical Microbiology and Infectious Diseases; Berlin, Germany – oral presentation	2013
- 54 <sup>th</sup> Inter-science Conference on Antimicrobial Agents and Chemotherapy; Washington D.C, United States – poster presentation	2014
- 3 <sup>rd</sup> International One Health Congress; Amsterdam, the Netherlands – oral presentation	2015
- 26 <sup>th</sup> European Congress of Clinical Microbiology and Infectious Diseases; Amsterdam, the Netherlands – oral presentation	2016

## APPENDIX

<b>(Inter)national conferences</b>	
- Scientific Spring Meeting KNVM & NVMM	2013
- Scientific Spring Meeting KNVM & NVMM	2014

<b>2. Parameters of Esteem</b>	
	<b>Year</b>
<b>Grants</b>	
- Public Engagement Seed Awards for the project “Community engagement activities to reduce the risk of zoonotic infections and antimicrobial resistance in Vietnam”, funded by Public Engagement Department, the Oxford University Clinical Research Unit	2016
<b>Awards and Prizes</b>	
- ASM Student and Post-Doctoral Fellows Travel Grant	2014
