Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

CONTENTS

CHAPTER 1	Introduction	9
CHAPTER 2	Nonlinear epigenetic variance: Review and simulations	19
CHAPTER 3	The nature of nurture: On the high heritability of cultural dependent cognitive abilities	37
CHAPTER 4	A genetic origin of Black-White mean IQ differences? Weak inferences based on ambiguous results	47
CHAPTER 5	On the interpretation of the CHC factor Gc	61
CHAPTER 6	The relations among <i>g</i> loading, heritability, and cultural load: Do current theories of intelligence account for them?	81
CHAPTER 7	Discussion	95
APPENDIX A	Mathematical description of the two-cell model	105
APPENDIX B	Setup of the Simulations in Chapter 7	107
