# Table of Contents

Chapter 1 ........................................................................................................................ 9
Introduction

Part One: Chronic Pelvic Pain

**Chapter 2** ...................................................................................................................... 19
Chronic pelvic pain in women

**Chapter 3** ...................................................................................................................... 35
Laparoscopic uterine nerve ablation:
A survey of gynaecological practice in the UK

**Chapter 4** ...................................................................................................................... 43
Study protocol - A randomised controlled trial to assess the efficacy of
Laparoscopic Uterosacral Nerve Ablation (LUNA) in the treatment of chronic
pelvic pain: the trial protocol ISRCTN41196151

**Chapter 5** ...................................................................................................................... 61
Laparoscopic Uterosacral Nerve Ablation (LUNA)
for alleviating Chronic Pelvic Pain: a Randomized Trial

**Chapter 6** ...................................................................................................................... 77
Meta-analysis using individual patient data from randomised trials to assess
the effectiveness of laparoscopic uterosacral nerve ablation in the treatment
of chronic pelvic pain: a proposed protocol

**Chapter 7** ...................................................................................................................... 87
Individual patient data meta-analysis of randomised evidence to assess the
effectiveness of laparoscopic uterosacral nerve ablation in chronic pelvic pain

**Chapter 8** ...................................................................................................................... 103
Psychological Therapies for Chronic Pelvic Pain:
Systematic review of Randomized Controlled Trials

Part Two: Heavy Menstrual Bleeding

**Chapter 9** ...................................................................................................................... 117
Hysterectomy, endometrial destruction and Mirena® for heavy menstrual bleeding:
A systematic review and individual patient data meta-analysis

**Chapter 10** .................................................................................................................... 141
Second generation endometrial ablation techniques
for heavy menstrual bleeding: network meta-analysis

**Chapter 11** .................................................................................................................... 163
The measurement properties of the menorrhagia multi-attribute
quality-of-life scale: a psychometric analysis

**Chapter 12** .................................................................................................................... 173
Summary and Discussion

Samenvatting ............................................................................................................ 182
Bibliography .............................................................................................................. 189
Authors’ affiliations ................................................................................................. 193
Dankwoord (Acknowledgements) ........................................................................ 195
Curriculum vitae ...................................................................................................... 197
