Bibliography

Chronic Pelvic Pain
Daniels, J, Khan, K.S. BMJ 2010;341:c4834

Laparoscopic uterine nerve ablation: a survey of gynaecological practice in the UK

A randomised controlled trial to assess the efficacy of Laparoscopic Uterosacral Nerve Ablation in the treatment of chronic pelvic pain: the trial protocol

A randomized controlled trial to assess the effectiveness of Laparoscopic Uterosacral Nerve Ablation for alleviating chronic pelvic pain
Daniels J, Gray R, Hills RK, Buckley L, Gupta JK, Latthe P, et al on behalf of the LUNA Trial Collaboration A Randomized Controlled Trial to Assess the Effectiveness of Laparoscopic Uterosacral Nerve Ablation (LUNA) for alleviating Chronic Pelvic Pain JAMA 2009;302(9):955-961

Individual patient data meta-analysis to assess the effectiveness of laparoscopic uterosacral nerve ablation in the treatment of chronic pelvic pain.
Psychological therapies for chronic pelvic pain: systematic review of randomised controlled trials

Hysterectomy, endometrial destruction and Mirena® for heavy menstrual bleeding: a systematic review and individual patient data meta-analysis

Hysterectomy, endometrial ablation, and levonorgestrel releasing intrauterine system (Mirena) for treatment of heavy menstrual bleeding: cost effectiveness analysis
Roberts TE, Tsourapas A, Middleton LJ, Champaneria R, Daniels JP, Cooper KG, Bhattacharya S, Barton PM. Hysterectomy, endometrial ablation, and levonorgestrel releasing intrauterine system (Mirena) for treatment of heavy menstrual bleeding: cost effectiveness analysis. BMJ. 2011;342:d2202

Second generation endometrial ablation techniques for heavy menstrual bleeding: a network meta-analysis.

The measurement properties of the menorrhagia multi-attribute quality-of-life scale. a psychometric analysis.
