Actor-related factors and structure-related factors and their dialectical relation in the process of receiving and translation of Law 10.639 in the school context

Theoretical framework and sub-questions part A

Theoretical framework and sub-questions part B

Agenda-setting on ethnicity/race in Brazilian education, multi-scalar interactions, arenas, actors, and events

Institutionalization of Law 10.639 and the Curriculum Directives 003/2004: arenas, actors and events

Reception and recontextualization of Law 10.639 and the Curriculum Directives 003/2004 at the school level: dialectics between contextual factors and actor-related factors

Average number of years of study, by age and race/color, Brazil 1988, 1998, 2008

Considering identity, difference and inequality in education: two interpretations

Responsibilities and actors involved in implementation of the Curriculum Directives

Responsibilities of the state and municipal education systems regarding implementation of Law 10.639 – main issues

Knowledge and beliefs of the pedagogical/management team of 12 schools in Niterói

Overview data collection outcomes of School 10 teachers

Overview data collection outcomes of School 10 pedagogical/management team members

Difficulties working with ethnicity/race issues and Afro-Brazilian and African culture and history identified by School 10 teachers

Difficulties in working with ethnicity/race issues and Afro-Brazilian and African culture and history identified by the School 10 pedagogical/management team

Factors stimulating the development of pedagogical practices for working with ethnicity/race issues and Afro-Brazilian and African culture and history identified by School 10 teachers

Factors stimulating the development of pedagogical practices for working with ethnicity/race issues and Afro-Brazilian and African culture and history identified by the School 10 pedagogic/management team

Main responsibilities of different spheres of the Union as described in the 1996 Education Act

Responsibilities of the Federal Union

Visited organizations and institutions Official Political Arena

Visited organizations and actors Civil Society arena

Organizations and institutions pedagogical arena

Participants (number and institutional role) and type and amount of data collected in the twelve schools

Participants (number and institutional role) and type and amount of data collected in School 10
