Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

CONTENTS

Chapter 1	Introduction	7
Chapter 2	Attentional modulation during inattentive blindness	17
Chapter 3	Does perceptual learning require consciousness or attention?	37
Chapter 4	Latent memory of unattended stimuli reactivated by practice: an fMRI study on the role of consciousness and attention in learning	63
Appendix:	MVPA classification analysis	87
Chapter 5	The role of ketamine in perceptual learning: mixed performance and reaction time effects	93
Chapter 6	NMDA receptor antagonist ketamine impairs feature integration in visual perception	105
Chapter 7	The subjective experience of object recognition: comparing metacognition for object detection and object categorization	121
Chapter 8	Summary & Discussion	141
	References	149
	List of publications	167
	Nederlandse samenvatting	169
	Dankwoord	175
