Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

Contents

Chapter 1	Introduction	1
Chapter 2	QTL analysis reveals the domestication architecture of Crisphead Lettuce	9
Chapter 3	Genomic regions in crop–wild hybrids of Lettuce are affected differently in different environments: implications for crop breeding	23
Chapter 4	Abiotic stress QTL in lettuce crop–wild hybrids in greenhouse and field experiments	39
Chapter 5	Genomic and environmental selection patterns in two distinct lettuce crop–wild hybrid crosses	61
Chapter 6	General discussion	83
	References	91
	Summary	101
	Samenvatting	105
	Acknowledgements	109
	Curriculum Vitae	111
