You will be contacted as soon as possible.

Contents

1	Introduction	1
1.1	Macroeconomic background	1
1.2	Macroeconomic research	3
1.2.1	Measuring the effects of fiscal policy	3
1.2.2	Fiscal policy during financial crises	5
1.2.3	Sovereign risk and macroeconomic fluctuations	7
1.3	Overview of the thesis	9
2	Transmission of Government Spending Shocks in the Euro Area: Time Variation and Driving Forces	15
2.1	Introduction	15
2.2	Related literature	19
2.3	Econometric methodology	20
2.3.1	Reduced-form VAR models	21
2.3.2	Estimation method	23
2.3.3	Data description	25
2.3.4	Structural interpretation	27
2.4	Estimated effects of spending shocks	29
2.4.1	Time-invariant impulse responses	29
2.4.2	Time-varying impulse responses	32
2.5	Robustness checks	38
2.5.1	Scaling factors	38
2.5.2	Stationarity conditions	40
2.5.3	Anticipation effects	42

2.6	The fiscal transmission mechanism	45
2.6.1	Views on the transmission mechanism	45
2.6.2	Driving forces of time variation	48
2.7	Conclusion	53
	Appendices to Chapter 2	54
2.A	Details of the Gibbs sampler	54
2.B	Calibration of the priors	59
2.C	Convergence of the Markov chain	61
2.D	Detailed data description	63
3	Expectations-Based Identification of Government Spending Shocks under Policy Foresight	67
3.1	Introduction	67
3.2	Policy foresight: problems and solutions	71
3.2.1	Model description	71
3.2.2	The non-fundamentalness problem	76
3.2.3	An expectations-based solution	80
3.2.4	Confronting the identification problem	80
3.3	Simulation evidence	82
3.3.1	Monte Carlo set-up	83
3.3.2	Standard SVAR identification	83
3.3.3	Expectations-based approach	85
3.4	Robustness	89
3.4.1	Small sample results	89
3.4.2	Spending reaction to lagged TFP	89
3.4.3	Spending reaction to current TFP	94
3.4.4	Surprise shocks under non-fundamentalness	95
3.4.5	Implications for applied research	97
3.5	Empirical application	99
3.5.1	Data description	99
3.5.2	Expectations-based identification	100

3.5.3	Comparison with standard SVAR identification	102
3.5.4	Predictability of shocks	105
3.5.5	Extended regression specification	108
3.5.6	Alternative identification scheme	109
3.6	Conclusion	110
	Appendices to Chapter 3	111
3.A	Analytical solution	111
3.B	Detailed data description	116
4	Financial Stress, Government Policies, and the Consequences of Deficit	
	Financing	119
4.1	Introduction	119
4.2	Model description	123
4.2.1	Households	123
4.2.2	Financial intermediaries	125
4.2.3	Goods-producing firms	129
4.2.4	Capital-producing firms	132
4.2.5	Fiscal policy	133
4.2.6	Monetary policy	135
4.2.7	Aggregation and market clearing	136
4.2.8	Equilibrium	138
4.3	Model analysis	139
4.3.1	Calibration	139
4.3.2	Surprise spending shock	139
4.3.3	Pre-announced spending shock	142
4.3.4	Financial crisis and policy responses	145
4.4	Related empirical evidence	153
4.5	Conclusion	155
	Appendices to Chapter 4	157
4.A	Steady state solution	157
4.B	The model without financial intermediaries	160

5	Sovereign Default Risk and Macroeconomic Fluctuations in an Emerging Market Economy	163
5.1	Introduction	163
5.2	Model description	166
5.2.1	Public sector	167
5.2.2	Private sector	169
5.2.3	Market clearing	173
5.3	Model estimation	173
5.3.1	Methodology	174
5.3.2	Data description	174
5.3.3	Calibration	175
5.3.4	Priors	176
5.4	Discussion of results	177
5.4.1	Model comparison	178
5.4.2	Amplification channels	184
5.4.3	Estimated impulse responses	187
5.4.4	Sensitivity checks	188
5.5	Conclusion	192
	Appendices to Chapter 5	192
5.A	Equilibrium conditions	192
5.B	Detailed data description	194
6	Summary and Conclusion	197
	<i>Samenvatting</i> Summary in Dutch	201
	<i>Zusammenfassung</i> Summary in German	207
	Bibliography	213
